About **HDFC Life**

Established in 2000, HDFC Life is a leading long-term life insurance solutions provider in India, offering a range of individual and group insurance solutions that meet various customer needs such as Protection, Pension, Savings, Investment and Health. Customers have the added advantage of customising plans, by adding optional benefits called riders, at a nominal price. As on March 31, 2017, the Company had 30 individual and 10 group products in its portfolio, along with 8 optional rider benefits, catering to a diverse range of customer needs.

HDFC Life continues to benefit from its increased presence across the country, with several new tie-ups and partnerships across traditional and non-traditional partners including NBFCs, MFIs, SFBs, etc. Total branches of the Company increased to 414 offices during the year under review. The Company has a strong base of financial consultants.

HDFC Standard Life Insurance Company Limited ('HDFC Life' / 'Company') is a joint venture between HDFC Ltd., India's leading housing finance institution and Standard Life, a global investment company. Currently, HDFC Ltd. holds 61.5% and Standard Life (Mauritius Holdings) 2006 Limited holds 34.9% of equity in HDFC Life, while the rest is held by others.

Vision:

The most successful and admired life insurance company, which means that we are the most trusted Company, the easiest to deal with, offer the best value for money and set the standards in the industry. "The most obvious choice for all".

Values:

Values are the most critical elements that reflect the conduct of an organisation during its day-to-day operations. Our Values are the pillars that guide everyone at HDFC Life.

Our Parentage and **Subsidiaries**

HDFC Ltd was promoted in October 1977 as a public limited company specialising in providing housing finance primarily to individual households and corporates for the purchase and construction of residential housing. HDFC is India's first retail housing finance company and is currently one of the largest originators of housing loans in the country. As at March 31, 2017, HDFC had mortgage loan assets of ₹ 3,385 billion (US\$ 52.19 billion). Since inception, HDFC has financed over 5.8 million housing units. 77% of shareholders in HDFC are foreign investors. HDFC's market capitalisation as at March 31, 2017 stood at approximately US\$ 37 billion. Over the years, the HDFC group has emerged as a strong financial conglomerate in the Indian capital markets with a presence in banking, life and general insurance, asset management, venture capital and education finance.

Standard Life was established in Edinburgh in 1825. Today, it is a global investment company helping people to invest and manage their money. Standard Life employs around 6,300 people internationally - through businesses in the UK, Europe, North America, Asia and Australia. Around 4.5 million customers and clients across 45 countries trust them with their financial future - and they are responsible for the administration of over £360 billion of their assets. Wherever they operate in the world, they are motivated by a sense of responsibility. It's what helps Standard Life to be a sustainable business and they are listed as a leader for corporate sustainability in our industry in the Dow Jones Sustainability Indices (DJSI World and DJSI Europe).

Subsidiaries

HDFC Pension started its operations in FY 2014. With 130,767 Customers and AUM of ₹ 1,163 Crs as on March 31, 2017, HDFC Pension is the fastest growing Pension Fund Manager under the New Pension Scheme (NPS) architecture.

HDFC International Life and Re Company was established in FY 2016 in the Dubai International Finance Centre (DIFC), to capitalise on emerging business opportunities, in view of the significant NRI population residing in the region by carrying out life reinsurance business. The Company intends to expand its footprints by offering reinsurance capacity to ceding life insurers in other markets in the coming years.

Chairman's Message

The Company had a healthy New Business Margin (NBM) of 21.6% during the year and its NBM continued to be among the best in industry

Dear Shareholders,

The financial year ending March 31, 2017 has been an important year in the journey for HDFC Life. The Company continued to consolidate its position as a long-term player in the industry with its focus on customer service, stronger product propositions and improved profitability. During the year, the Company also announced a potential merger with Max Life Insurance Company with a view to increase the width of its distribution, balance the product mix and to leverage the revenue and cost synergies between the two companies. The biggest leverage for the merged entity will come from employees of both the companies. The regulatory approvals for the proposed merger are awaited at this moment.

The macro-economic factors and demographics in India continue to support the growth of life insurance business. However, the competitive intensity remains high, leading to "short-term" behaviour patterns by players that are value-eroding for the industry. Your Company has continued to tread a path of profitable growth and customer-centricity in these times. New Business Margin (NBM)

is a key indicator of the health of any life insurance business. The Company had a healthy NBM of 21.6% during the year and its NBM continued to be among the best in industry. The Company registered a growth of 19% in the overall premium, while Indian GAAP profits grew at 9% over last year. The Company maintained a steady growth rate of 9% over last year in the Individual business (WRP). The Company has been at the forefront of technology adoption and turning itself into a digital insurer. Multiple initiatives in these areas have led to more straight through processing, faster customer response times and automation of processes. All of these have led to the Embedded Value (EV) of the Company growing at a healthy rate of 21% over last year.

Financial services sector in India has seen rapid changes during the last year. The pace of digital adoption by Banks, NBFCs and Insurers has accelerated quite significantly. Newer players like payment banks, digital wallets and FinTech companies are introducing innovative models for customer acquisition and service. While it is early days for them, their approach is nudging the traditional

players to rethink their processes and business models. Further, the one-time exercise by the Government of India in November 2016 to phase out currency bills of ₹ 500 and ₹ 1,000 and replace them with newer bills (commonly referred to as demonetisation) has increased digital adoption significantly during the year. The Government's continued efforts in increasing the usage of Jan Dhan accounts, Aadhaar and Mobile ("JAM Trinity") is also broadening the base for financial participation and reducing the costs to reach new and unserved customer segments.

These positive changes open up new possibilities for HDFC Life. Building an agile, multi-distribution platform was one of the key strategic themes chosen by the Company as part of its strategic planning exercise last year. The Company is building an ecosystem of alliance partners spread across Banks, NBFCs, Small Finance Banks, Payment Banks and Ecommerce aggregators and integrating with their technology platforms to acquire and service customers. The distribution platform provides a frictionless, paperless customer onboarding

The Company has also improved on various 'quality of business' metrics that it tracks including customer complaints, persistency, employee attrition and claim settlement ratio

experience through these partners and also allows the Company to innovate on pre-approved offers, auto form fill-up and a choice of product options on the go. The Company has also invested in mobility solutions for its workforce that has improved field force productivity, rationalised branch infrastructure and increased servicing options for customers. The Company has multiple ongoing programmes that use Artificial Intelligence (AI), mobility and analytics to strengthen its digital proposition. I believe the Company has made investments in the digital space ahead of the curve and it is poised to take advantage of the larger trend of digitisation in the Indian economy.

While digital distribution is a key part of its future, the Company has continued to build its physical distribution network. The traditional channels of Bancassurance, Agency, Direct and Brokers have seen profitable growth during the year. The Company also defined a new Agency model during the year that will be rolled out in FY 2018. This model will have a greater focus on agent training, productivity and providing newer tools to agents to acquire and serve more customers.

The Direct channel (excluding online) also saw a healthy 29% growth during the year.

Apart from the financial metrics, the Company has also improved on various 'quality of business' metrics that it tracks including customer complaints, persistency, employee attrition and claim settlement ratio. Employee engagement index has also increased over the last year on the back of employee-centric initiatives undertaken by the Company.

The two subsidiaries of HDFC Life - 'HDFC International Life and Re Company Limited' (HILRCL) and HDFC Pension Management Company, performed well during the year. HILRCL started its operations in FY 2016 and has steadily made its presence felt in the GCC markets. HDFC Pension has in a short span crossed ₹ 1,163 Crs of Assets Under Management. With the Government's focus on deepening pension penetration in India, HDFC Pension has strong future prospects. Both the subsidiaries are platforms that will provide future growth opportunities for your Company.

The prospects of India's life insurance market remain positive with a strong GDP growth rate, increasing levels of financial savings and initiatives undertaken by the Government of India to ensure adequate social security for its citizens. The market will remain competitive with newer players and intermediaries entering the fray. Your Company remains focussed on its objectives of profitable growth, providing an agile, multi-distribution platform and delivering long-term value to the consumers through life insurance products. I would like to thank all the shareholders for another year of support and trust reposed in the Company.

From the desk of the MD & CEO

Dear Shareholders,

I have previously compared running a successful life insurance business to running a marathon. You need to take a long-term view of your goal, stick to your race plan despite the occasional surprise on the course and continue going forward regardless of the odds. FY 2017 was another significant step forward in the marathon that HDFCLife has embarked on to become the most respected life insurance Company in India. True to the marathon metaphor, we had multiple surprises on course during the year – periods of financial markets' instability at the beginning of the year, short-term impact of demonetisation (that turned out to be mostly positive!), a potential merger announced by HDFCLife and continued competitive intensity in financial service sector in India. We took each of them in our stride during the year to deliver another set of solid financial results and we have made significant progress on our key strategic themes laid out in the previous years. This has been made possible because of the

focus we have had on building a high quality, de-risked business model that has eschewed "short-termism". Our strategic choices in pursuing profitable growth, customer-centricity and providing timely and appropriate risk cover to Indian consumers were validated in a fairly unpredictable business environment this year.

The overall premium collection grew by 19% to ₹ 19,445 Crs during the year compared to the 10% growth that the Company had the year before. The individual new business (WRP) grew by 9%, while the group business witnessed a growth of 59% during the year. Our focus on profitable growth has resulted in a steady growth in the New Business Margin (NBM) over the years. In the last 6 years, we have improved our NBM by over 11 percentage points. We ended up FY 2017 with an industry leading NBM of 21.6%. This reflects the quality of business written, the institutionalised practices that improve customer retention and the tight management of expenses that are integral to

our way of doing business. We also increased our Indian GAAP profits by 9% to ₹ 892 Crs.

The financial numbers tell only a part of the story. We saw tremendous improvements in our quality of business metrics as well. We reduced our policy issuance TATs by 30% on the back of investments that we made in technology and digital initiatives. The persistency figures improved across most of the policy cohorts with the 13th month persistency ending up at 81%. The claims settlement ratio was among the industry best at over 99% and the number of complaints per ten thousand policies reduced by 24%. The digital initiative adoption was widespread across the organisation and over 98% of the policies were sourced using digital medium.

The Company had always stated its intention to list in the Indian markets and we had initiated the Initial Public Offering (IPO) process at the beginning of the year. While we were

on course for the listing, the Board of Directors of the Company approved entering into an agreement to merge our business with Max Life Insurance Company Ltd., through a composite scheme of arrangement also involving Max Financial Services Ltd. and Max India Ltd. The proposed merger aims to bring together two entities that have complementary capabilities in an extremely competitive life insurance market. The merged entity would have a wider product suite, a diversified distribution mix and enhanced service touch points for customers. This is an attempt to shape life insurance industry in India and to create a cutting-edge life insurance company of the future. We are awaiting the necessary approvals for the merger.

In our strategy roadmap, we had outlined building an agile, multi-distribution platform for our partners as one of the cornerstones of our strategy. We made significant progress on this theme during the year. The count of institutional

partners who sell our products is now over 100. This strength is the reason for the strong growth we had in the group premium segment of our business during the year. The nature of partners range from traditional banks, NBFCs, MFIs, Payment Banks, Small Finance Banks in financial services, to partners in Ecommerce, Telecom, Healthcare, Media and other emerging ecosystems. This wide range of partners is an important validation of our view that there are multiple routes of reaching customers to deliver insurance solutions as the world becomes more digital and customers aggregate on newer platforms. We have been working on deeper technology and process integration with these partners using our agile platform to ensure we deliver the best insurance solutions to their customers. This is an important area of future growth and we are making investments in deepening our expertise in these new ecosystems and building strong capabilities in newer technologies. The Company continues to have a

We have deepened our commitment and efforts at embedding HDFC Life values in every action that we undertake in the Company

clear focus on traditional channels that remain salient to a large customer segment in India. The results of our efforts were seen in double-digit growth seen in the tied Agency and owned Channels. We have also worked on a revamped Agency model that we plan to roll out in FY 2018.

We also continued on our journey towards a frictionless customer on-boarding experience working in close collaboration with our distribution partners and agents. We had discussed the rapid strides we made in adopting mobility to enhance customer experience the year before. In FY 2017, we took this further with our Mobility 2.0 journey. Now, mobility is entrenched across the way business is done at HDFC Life - from the way an employee works through the day to how an agent or a distributor on-boards a customer. We have all of our sales and service staff now manage the entire customer acquisition process in a paperless model. With significant push for Digital India by the Government and accelerated adoption of digital channels in financial services aided by demonetisation, we see our leadership in mobility adoption as a competitive advantage for the future.

While we make our customer interfacing platforms more intuitive, digitally enabled and customer friendly, we realise mid and back-office transformation is equally crucial. We have taken up Robotics and Artificial Intelligence (AI) based automation in a concerted way during the year. The ability to develop an automation tool that can "learn" has become progressively easier over the years because of advances in Machine Learning (ML) and Natural Language Programming (NLP). During the FY 2017, more than 20 mid and back-office processes have been automated using bots and automation tools, that have reduced costs and increased accuracy of the processes. This has provided the Company with confidence to take up robotics process automation at a larger scale.

During the year, we also deployed our enterprise-wide TEBT platform in areas of customer and policy servicing. Over the past 3 years, we have re-architected our technology stack through the TEBT program with the intention of having every single function in the life insurance value chain on this modular and interoperable platform. This has helped us with our journey to become

a truly digital insurer. The environment is rapidly changing around the world with new age technologies creating disruptive models. Life insurance seems to be untouched so far but the time is ripe for disruption in this sector. We believe we must disrupt first if we have to avoid being disrupted from outside. We have been working on a number of digital initiatives across the value chain to pre-empt disruption from outside. I will be keen to share with you, the results of this next year.

We have deepened our commitment and efforts at embedding HDFC Life values in every action that we undertake in the Company. The Value Ambassador and the Value Guardians programmes that we initiated two years back have been going strong. We continue to make considerable investment in talent management and employee engagement areas. The extent of change that we are managing requires us to have deeply committed and driven employees who can challenge the status quo, set high benchmarks and exceed them. A large part of the workforce is in frontline sales and the Company has taken the lead in alternate skill-building and hiring models. These models are designed to re-emphasise the values

“ The focus on superior execution on a clearly defined strategic roadmap has helped us deliver consistent value to our shareholders ”

of HDFC Life and strengthen the belief in the 'HDFC Life way' of conducting business.

I would also like to draw your attention to the promising performance of your two subsidiaries during FY 2017. HDFC Pension has been the market leader in adding new subscribers and new corporate sign-ups. It has over ₹ 1,163 Crs of Assets Under Management and has seen the fastest growth among private pension fund management companies during the year. Pension is a huge opportunity in India and the Government has rightly identified a 'pensioned society' as one of its priorities. HDFC Pension is on the right path in this hugely promising sector. HDFC International (HILRCL), the second subsidiary, started its operations in FY 2016 and has steadily made its presence felt in the GCC markets. We are putting together a strategic roadmap for the reinsurance segment during FY 2018.

Life insurance in India has a long runway for growth aided by favourable demographics, a growing economy and a large untapped, under-served market. In comparison to many of its Asian counterparts, the Indian life insurance sector still offers significant

headroom for growth. Regulatory stability, robust GDP growth, higher financial savings and increased digital push present a huge opportunity in the near future.

Trust is the most important currency in Life Insurance and we have built our business to deliver this with utmost care. The focus on superior execution on a clearly defined strategic roadmap has helped us deliver consistent value to our shareholders. The agility to adapt to changes in the Indian life insurance industry has allowed our business to grow profitably. I would like to thank all my colleagues at HDFC Life for going the extra mile to serve our customers every day at work. They are the reason I remain confident that HDFC Life will continue to perform successfully on its journey. I also thank the shareholders for their continued support and guidance through the year.

Corporate Social Responsibility

Long-term sustainable business growth can be established on a foundation of ethical social responsibility. We contribute towards social development through our various initiatives under the realm of Corporate Social Responsibility.

In FY 2017, our CSR initiatives have been focussed in the areas of Education, Health, Livelihood, Environmental Sustainability and others. HDFC Life has impacted the lives of over 1.80 lac beneficiaries through various projects during FY 2017.

Employees are encouraged and provided with opportunities to volunteer for social causes. They are empowered to design and implement socially relevant and beneficial projects. This allows the employees to collaborate with the eco-system and contribute to the society.

Employee Volunteerism

Employees play an active role in contributing to social causes. Many activities in their respective branches and locations are conceptualised and executed by them. These are relevant to the local needs and result in promoting our people engagement, collaboration and integrity values. Employees are also involved in activities organised for the identified beneficiaries of the ongoing projects.

Customer Service

At HDFC Life, Customer-Centricity is a part of Organisational Values.

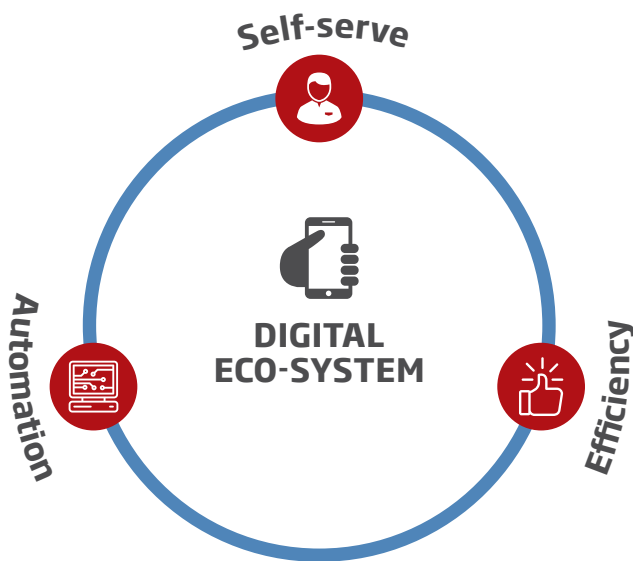

Customer service and retention have been focal points of evolving an enhanced level of experience for our customers. We have endeavoured to improve the customer experience through effective response to customer requirements and expectations and alignment of systems and processes to meet these requirements. HDFC Life is looking at digitising processes to have an edge in providing speedy and accurate response to customer needs.

Digitally-enabled Customer Service

We understand that managing the value chain across life cycle of the customer is the key to survival. The initiatives that have been taken up envisage a digital approach with ultimate objective of enhancing customer experience.

The digital eco-system comprises 3 major aspects:

- **Self-serve:** The options that allow the customer access to policy information 24x7 - anyplace, anywhere
- **Automation:** Wherever possible, automating processes to speed up delivery
- **Efficiency:** Improving process quality and outcomes

Simply Chat

In FY 2017, we went live with a chat-based channel for customers on our website and through our customer portal 'MyAccount'. Customer can now avail of self service 24x7, vide hashtag options. In case of complex queries, there is a seamless transfer to an agent-assisted mode.

Chat Bot (In progress)

This solution will be a two-fold solution as a chat bot layering the assisted chat solution and interactive FAQ. It will serve as a self-serve mode to the customers available 24x7.

Customer-Service Mobile App

In an attempt to fulfil servicing needs on the go, the customer service mobile app has been made live this year. The app allows the customer to review details of his/her policy and pay online. Features such as Fund Switch, Premium Redirection, Top-up, etc. are in the pipeline and due for launch with the next release.

Email Automation

Currently in pilot mode, the initiative aims at reducing the turnaround time for customer requests received on our email platform. A natural language processing based Bot named SPOK has been deployed to improve speed, provide additional processing capacity and standardise the service experience.

De-Centralised Policy Servicing

In an effort to improve turnaround time, mini-hubs have been set up at 3 locations in addition to the centralised hub. This will ensure customer requests are serviced at a faster rate.

Claims Assist

Claims documentation is continuously re-designed to make it easy, simple and claimant-friendly. All the documents are available on the website and accessible for download even on mobile. Videos explaining the documentation required are also available. Once a claim is raised, the Claims Assist Team takes over to assist and smoothly guide the claimant through the entire process.

Online Payment Transformation

A new payment process has been deployed with an easy 3-click based successful payment approach and has made the payment journey responsive and compatible with multiple browsers and form-factors. New avenues such as over-the-counter premium acceptance at HDFC Bank and Axis Bank branches, CSC centres and Wallets like PayZapp and Jio Money were added this year in a continuing effort to make it simple for customers to renew policies.

Pre Conversion Verification

In a pioneering move, a mobile app InstaVerify has been developed to provide unique and personalised experience in customer verification while on-boarding. Overall adoption rate has been at 28% with highest adoption of 45% amongst HDFC Bank customers.

Servicing Options on Twitter Chat *(In progress)*

Introducing a dedicated Twitter handle where customer can avail self serve, servicing options and even renewal payments.

Increase in Servicing Options at Touch Points

As a part of technology transformation implementation, existing systems and processes have been overhauled to provide ease of servicing at touch points without back-end dependency. End-to-end communication process flow has been designed to ensure customer is kept informed in his policy servicing journey.

Claims Processing

Rule engines and predictive technology is used to achieve accuracy and consistency in the claim decision. This engine is updated and tuned up at regular intervals. In the current year, claim settlement ratio stands at above 99%.

In a pioneering move, a mobile app InstaVerify has been developed to provide unique and personalised experience in customer verification while on-boarding

Digital Initiatives

Robotics

The Company believes in being technologically adept to improve customer experience, enable workforce and subsequently, enhance efficiency. Hence, we embarked on our journey of Robotics. We engaged a large number of international and domestic players, with the critical objective of understanding the potential use cases and identifying the most appropriate vendor. After analysing multiple proofs of concept, certain capabilities and vendors were shortlisted. Automation index was then created to identify processes with large volumes, repetitive manual data processing activities, large Non Value Adding (NVA) steps and high risk of errors. Shortlisted processes were evaluated for Cost Benefit Analysis and functional fitment.

(a) Robotics Process Automation (RPA): A non-invasive, IT automation of manual data and document processing activities, encompassing large volumes.

RPA substantially increases process efficiency and decreases Turn Around Times (TATs), while simultaneously decreasing the NVA steps, costs and risks of manual errors.

Our first RPA implementation was the Customer Initiated Payout process. Within a month, this delivered a 100% success with 100% accuracy. TATs were reduced by 4 days. This has been an ideal harbinger for various processes queued up for RPA implementation in FY 2018.

(b) Optical Character Recognition (OCR): An automated document reader for scanned/digital documents, with standard templates like KYC, Income and Medical documents.

OCR reduces the manual effort for data entries and scrutiny, by providing automated extraction of data. It enables digital storage, tabulation of data and advanced data analytics.

Our first OCR implementation involved Pathology reports of 100+ types. These reports were then used in underwriting process to reduce TATs and the data was included in the study for predictive analytics. Any instance of systematic uncertainty of 100% accuracy is followed by a thorough manual scrutiny. Customer on-boarding processes, which require KYC verification, income and other documents, will automatically knock off such requirements, once a digital document is uploaded and run through OCR process.

(c) Artificial Intelligence: The cognitive ability of a software bot to automatically read, understand, categorise, prioritise and respond to customer emails, all within milliseconds.

These Bot are built on Artificial Intelligence and Natural Language Processing technologies. These bot replicate human cognitive abilities in reading, comprehending, interpreting and conversing.

This standardises communication and reduces on-boarding time in

high attrition workforce. This also complements the overarching objective of instant response at all hours.

Our early implementation of Artificial Intelligence includes an advanced Customer Email Management algorithm. This facilitates preferential email routing, based on issue criticality & agent vintage. Solution provides smart chats using Hashtags for self service and FAQs.

Straight-Through Processing and Mobility

As a part of the standard insurance sales process, a prospect customer has to fill an application form and fulfil regulatory KYC and AML requirements. These include, but may not be limited to; Identity, Address and Income proof. Additional documentation necessities may be SI/ECS mandate, NEFT, acceptance of Most Important Terms & Conditions (MITC). Need for Medical check-up can be additional requirement for certain policies. This is a time-consuming process for Customer and Sales Person and requires repetitive follow-ups. This causes time and effort wastage, often resulting in irate customers.

Mobility is one of the key strategic initiatives HDFC Life has taken in order to drive sales efficiency and customer convenience. The Mobility suite has ensured convenience to the Customer and Sales teams providing an 'Anytime Anywhere' business experience, reduced dependency on branch infrastructure, improved turnaround times and optimised internal processes. Today, an insurance policy can be converted within 20 minutes after login using the Mobility solutions.

Straight-Through Processing (STP):

Project was initiated to identify avenues for streamlining customer experience, while simultaneously reducing issuance TATs and efforts. We integrated our systems with the partner bank's database, with the intention of using the existing records for documents fulfilment. KYC documents are often already collected by Partner bank distributing our products. Apart from the bank, we have also integrated our systems with syndicated databases for validating / collecting Aadhaar, PAN and income statements. Additionally, multiple documents were combined into one single Customer Consent Document (CCD) to eliminate risks of missing these requirements and the chances of any avoidable cancellations.

STP initiative has simplified customer on on-boarding process and experience, and reduced the policy issuance time significantly. This has also reduced the manual effort and need for more resources as business scales up.

Mobility: In FY 2017, close to 65% of our new business applications were

logged in using mobile devices which is the highest in the industry, while the remaining business was logged in using other technology platforms. HDFC Life has completely stopped printing paper proposal forms. The upload of supporting documents is done through digital means and has consistently been over 98% throughout the year enabled by our upload manager app - InstaFR. Another app, 'InstaKit' has allowed our sales force to explain products conveniently using videos & e-collaterals thereby reducing our paper footprint significantly. Our innovative solution InstaVerify allows us to package a contact centre agent in a box and enabled us to cost-effectively close our sales verification process. We have completed more than 200,000 Insta Verification in FY 2017. Day-to-day activities like marking attendance are also done via our mConnect app leveraging geo-tagging and geo-fencing. Our mobility initiative has won around 16 prestigious industry awards including DL Shah Quality Award, India Insurance Awards and BFSI Awards & CIO 100 Awards.

STP initiative has simplified customer on-boarding process and experience, through which non medical policies can get issued within few minutes to hours. This is contrary to the earlier scenario, wherein it would take at least a week

Customer Value Management

We believe in Customer Value Management (CVM) to enhance value for customer and the organisation. This is done by helping customer remain invested in policy and acquaint him/her with the most befitting financial solution at his/her life stage. This is done at all service touch points. The task encompasses the last mile conversion too, including working with sales teams to enhance lead conversion and embed cross-sell as a part of the sales process.

(a) Lead Warming Call Centre (LWCC): Call Centre Executives actively engage with existing policy holders. This is done at predefined trigger events to facilitate service query resolution and create cross sell intents. LWCC then qualifies the probable leads and shares them with the prevalent channel's front line sales personnel. LWCC is a unique service-to-sales framework which has the ability to bridge the gap between sales and service functions. This further helps the organisation achieve service optimisation and improve sales force productivity, in a customer-centric ecosystem. It works to provide seamless experience to customers across all services, renewals collections, direct marketing, branch operations, and payouts processing teams, and generates potential sales opportunities. LWCC is a channel agnostic set-up and works with respective sales channels to maximise conversion for revenue enhancement. The unit is well supported by in-house behavioural insights and analytics (customer propensity, product fitment models). The objective is to pitch the right set of products to the customers leading to improved appointment generation and higher lead closures.

(b) Pre Approved Sum Assured (PASA): A unique offering launched for a specific customer base, which is eligible for an additional sum assured. This addition is over and above the purchased insurance cover. The unique selling point of this offering is that the customer need not provide any additional document. This makes new policy purchase seamless and ensures faster policy issuance. We are working towards integrating different credit bureaus and partner eco systems. The motive is to build financial underwriting and straight-through processing via Meta PASA offering. This will allow the offering to be extended to customers of our partners, who haven't yet bought insurance solutions.

(c) Tele-Sales via Tele-Binding: This initiative was launched to up-sell to existing customers, whose payout is due in the near future. The effort is to help customer redeploy some of the outgo as new solution as per life stage. Customers are pitched the product that will fulfil their current needs of insurance and are provided the option to pay the premium online or have it funded by the payout of the previous policy.

(d) Tele-Sales Verification & Conversion: This initiative supports tele-verticals of our corporate agents. It builds capability of tele-verification & closure desk, for faster processing of cases. This team enables completion of verification & form filling activity for partner generated tele-sales leads. This strengthens faster processing and enables end-to-end closure on phone.

“Lead Warming Call Centre is a channel agnostic set-up and works with respective sales channels to maximise conversion for revenue enhancement”

Brand Performance

“ In our endeavour to cement our stance as digital leaders in the industry, we attempted to convert the fence sitters in the online insurance buying journey through the ‘Click to Insure’ campaign ”

Since inception, HDFC Life has moved on to epitomise its brand tagline ‘Sar Utha ke Jiyo’, by enabling a life of pride and dignity for all its stakeholders. Our positioning continues to resonate strongly amongst our customers and we are seen today as a brand that stands for financial independence; an enabler to a life of pride and dignity. It’s no surprise that HDFC Life was recognised as a Superbrand for the 6th time.

HDFC Life has been a pioneer in the life insurance industry in India - adapting to the latest trends in the digital sphere and leveraging technology to achieve customer delight. This year, we launched HDFC Life YoungStars, India’s first digital talent hunt harnessing the power of technology and engaging our customers with an emotional connect. It gave our customers a unique platform to showcase their kids’ talent and fulfil their dreams.

In our endeavour to cement our stance as digital leaders in the industry,

we attempted to convert the fence sitters in the online insurance buying journey through the ‘Click to Insure’ campaign. We highlighted various offerings by HDFC Life like a wide range of plans, online assistance and support that simplifies the online journey. An interactive tool - a recommendation engine helping the customer to learn about the best plans to suit his/her demographic profile - was also created based on our past online sales experience of over 5 years. We reached out to the millennials using humour as a genre for a number of online campaigns. A series of animated videos “Don’t Be a Pappu” was created on tax planning with ‘Pappu’ as the protagonist. The educational campaign stitched in the importance of planning taxes on time with Pappu visiting social pages and giving tips and tricks on tax planning. The video series went popular on Social media and the campaign was awarded with a Bronze in APAC Consumer Engagement Forum Award for its uniqueness & relevance.

Focussing on customer education, we devised a game-based online digital platform - Click2Prepare to increase awareness on the different aspects of insurance planning. Four journeys or mission were created on each specific Insurance product category - Insurance in general, Term plans, Investment & Retirement. The users could explore the platform as per their interests and get rewarded for successfully finishing their missions. This witnessed a lot of traction in terms of visits, time spent on the website and high sharability on social platforms.

“ We launched our new brand campaign ‘Apno ko apne dum pe jeena sikhao’ with the objective of creating awareness and reinforcing the core benefits of life insurance i.e. protection against life’s uncertainties. ”

We launched our new brand campaign ‘Apno ko apne dum pe jeena sikhao’ with the objective of creating awareness and reinforcing the core benefits of life insurance i.e. protection against life’s uncertainties. With protection as the overarching theme, we were able to bring about the need for life insurance to the forefront and also build preference for the brand.

To take the brand thought further and enhance brand affinity amongst the channel partners and their customers, we did an experiential campaign #MyMomentOfPride, which provided a platform to the customers, to say ‘Thank You’ to their loved ones through this innovative on-ground activity. It was taken nationwide to cinemas, malls, all high footfall channel partner branches & culminated with an outdoor leg called the ‘Billboard of Pride’ that celebrated thousands of participants & their thank you messages.

We focussed on the ideology of “Innovation, Customisation and

Personalisation” to engage with our customers by introducing card-based engagement modules and game-based learning micro sites. The initiative was well recognised for its innovation in the field of email marketing. We also

automated our cross sell campaigns through an integrated multichannel platform that helped us increase customer reach and improve response rate by offering them the right products.

Management Discussion and Analysis

A. Macro Economic Trends

The last year under consideration has been marked by several developments in India and worldwide. Globally, the large economies saw a pull back from the pessimism of deflation and slow growth. The IMF (International Monetary Fund) projected global growth at 3.1% for 2016, accelerating to 3.4% and 3.6% for 2017 and 2018 respectively. The improved outlook on growth helped commodities recover from the lows seen at the beginning of 2016. Among the developed markets, US led the way with a 1.6% growth for 2016, a modest expansion, which helped the economy to chip away the unemployment rate steadily to below 5% levels. Growth expectations for the US were raised higher after the surprise election win for Donald Trump, who had espoused an expansionary fiscal policy and tax and regulatory reform in the course of his campaign. The Euro area suffered a jolt, in the middle of the year, as Britain voted to break away from the European Union. The impact, however, was short-lived as the improving growth prospects in the rest of the world, and a pick up in Germany, the bloc's largest economy, turned sentiments around. The Chinese economy expanded 6.7% in 2016, in line with the expectations. However, continued stimulus and pick up in global trade growth were the key positives for Chinese growth.

On the domestic side, the economy benefitted from a near normal monsoon, which helped alleviate some stress in the agrarian and rural economy caused by poor rainfall over the previous two years. The improvement in the agriculture output helped rein in inflation and provided room for RBI to ease monetary policy. In November, the sudden demonetisation of large currency notes signalled an escalation in the policy actions to curb and penalise illicit activities.

The demonetisation move has the potential to generate long-term benefits for the overall economy with specific impact on the financial services sector. It should

potentially reflect in form of lower 'black money', higher digitalisation and transparency and increasing shift of household saving towards financial assets. All of these could eventually lead to higher GDP growth, better tax compliance and greater tax revenues.

The Government was also successful in getting constitutional amendment passed through the legislatures, to pave the way for the long awaited Goods and Services Tax (GST) regime. This is a significant tax reform and augurs well for improving the tax to GDP ratio in India. GST will create a common Indian market and further aid in increasing tax compliance, boost investment and growth and improve governance.

Lower interest rates have been favorable for life insurance industry, as investors are scouting for other investment alternatives than the traditional FDs which are offering lower returns on the investment.

Numerous other initiatives have been undertaken by the Government, to increase financial inclusion and penetration across the country and build a resilient and resurgent Indian economy. The impact of above initiatives is reflected in form of 35% increase in average AUM of mutual funds (Source: AMFI) and 26% increase in new business (individual and group) insurance premium (Source: Life council data) during FY 2017.

In FY 2017, real GDP is projected to grow at 6.5%, as per the current Economic survey, versus 7.6% growth registered in FY 2016. The marginal decline is attributed to multiple reasons including demonetisation, movement in oil prices and stressed infrastructure assets position, etc. Despite the short term growth slowdown, India remains one of the fastest growing emerging market economies and the continued reforms shall play a key role to deliver stronger growth in future. IMF has also raised India's growth estimate for FY 2018 to 7.7%.

Key Levers Impacting the Life Insurance Industry in India

Life insurance in India has undergone through series of cycles, mostly unexpected, since opening up of the sector in 2000. Between 2010 and 2015, the sector performed below its potential, driven by some of these uncertainties and the reset of operating models forced by such changes. However, private players' have shown remarkable growth in past two years, thereby reiterating positive long term outlook for the sector.

Strong macroeconomic trends and the Government's focus on increasing financial inclusion and raising financial awareness would further assist in delivering strong growth for the sector. Below are select factors which position the sector on growth trajectory. While most of these factors have already been at work for last few years, increasing focus on financial savings amidst saving dominated culture in India and shift towards cashless economy should help crystallise the outlook better.

Management Discussion and Analysis

India has one of the largest proportion of young population in the world, with 400 million millennials that are transforming the way business needs to be done. By 2030, about 60 percent of population would be part of working age, offering great opportunity for long term savings and investment plans. With unique consumption patterns and fast-paced lifestyles, millennials are redefining the savings and investment landscape in India. The ambitious millennials are in for the long haul and are increasingly turning to life insurance as a viable, attractive investment instrument. While many view it as a way to secure their financial independence, others consider it as a means to achieve long-term goals, such as planning an early retirement.

The demand for retirement policies shall rise with increasing life expectancy, declining birth-rates and proportion of India's elderly population expected to increase by almost 50% by 2030. Emergence of nuclear families and increasing life expectancy shall also facilitate need for pension and protection based products.

Protection gap (2014)

Despite the growth witnessed by life insurance industry in India, the level of insurance awareness and coverage continues to be on lower side for the masses, across key metrics. India has highest protection gap amongst other countries in Asia, coupled with significantly lower density. The insurance density for life insurance business, (measured by premium per capita), reduced from US\$ 56 in FY 2011 to US\$ 43 in FY 2016, while the protection gap has increased over 4x in last 15 years. The growth in savings and life insurance coverage has lagged behind the overall economic and wage growth. The current life insurance penetration in India at 2.7% is also lower compared to other emerging economies as well as historical penetration in India itself. These metrics compare poorly compared to other economies, specifically the savings dominated markets and offer tremendous growth opportunity. Numerous Government initiatives reiterate the long term growth potential for the sector.

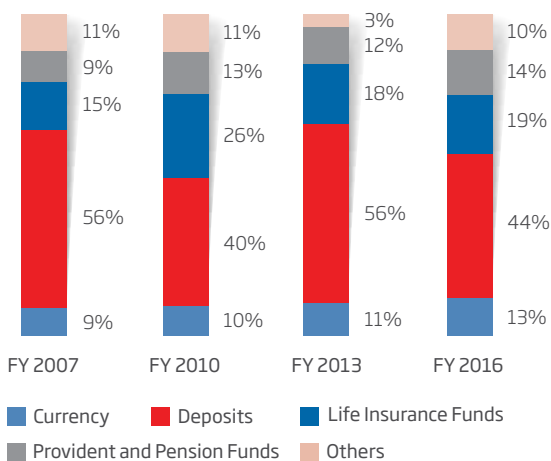

Management Discussion and Analysis

III. Shift in composition of savings

Household savings composition

Financial savings mix

Source: DBIE-RBI Statistics, RBI Annual Report, Economic Survey, CSO

Household savings play an important role in driving the economic growth of the country. India has historically maintained balanced mix of physical and financial savings. Underperforming equity markets and persistently high inflation led to a larger proportion of household saving shifting towards physical assets between FY 2007 and FY 2013. However, the trend has been changing in recent years, with increased preference towards financial savings. Within financial savings, life insurance is one of the preferred investment options with modest increase in proportionate share, as it caters to a

unique mix of long-term savings propensity and protection needs.

The First Advance Estimates of National Income, 2016-17 report released by the Central Statistics Office (CSO), has estimated India's per capita net national income to be at US\$ 1,516 during FY 2017, registering a year-on-year growth of 10.4%.

Expected revival of the Indian economy and an increasing focus of the Government to promote financial inclusion should imply an increase in the overall household savings and the financial savings over coming years.

IV. Increasing digital adoption

The world is at the cusp of a new revolution where advancing genomics, artificial intelligence, material and manufacturing technology is transforming and evolving on daily basis. Machines are closing in on mankind's ability with astonishing speed and robots replacing humans not just on the factory floor but in homes as well. Deriving higher efficiency is the key driver for this digital transformation. Technology is playing critical role in making our lives simpler while making us more productive individuals.

India has 1.03 billion mobile users, out of which 250+ million people own a smart-phone (likely to grow to 400 million by 2018), making India the world's second-biggest smart-phone market. With high smart-phone adoption and the widespread availability of strong mobile broadband infrastructure, we believe millennials will become a disruptive force, way faster than most businesses expect. The Indian millennial population is technologically savvy, has high ambitions/aspirations, is highly mobile, prefers convenience, and is digitally influenced.

Insurance companies continue to explore cost effective modes of distribution and make investment in setting up digital infrastructure. Online has the potential to emerge as a leading sales channel for life insurers in India at lower cost, better quality and higher growth potential in the coming years.

Technology initiatives can have meaningful impact across the life cycle of insurance business, beyond customer facing sales proposition. 'InsureTech' offers significant potential to capitalise and leverage on the changing technology landscape across procurement, fulfillment and servicing an insurance policy.

Management Discussion and Analysis

V. Government and Regulatory initiatives

- a) **Digital initiatives (JAM trinity):** The National Payments Corporation of India (NPCI) has successfully launched the Unified Payments Interface (UPI) platform. By facilitating inter-operability it has unleashed the power of mobile phones in achieving digitisation of payments and financial inclusion, and making the "M" an integral part of the Government's flagship "JAM" trinity - Jan Dhan, Aadhaar, Mobile initiative. The Government continues to focus on the digital initiatives by introducing new schemes including promotion of BHIM app for mobile payments. This will further strengthen transparent financial ecosystem.
- b) **Initiative to create social security through low cost insurance schemes:** Government has continued its focus on various low ticket size insurance schemes including the Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY) and Pradhan Mantri Suraksha Bima Yojana (PMSBY) launched in FY 2016, with an objective to introduce the concept of insurance to masses. With around 130 million policies sold till date as on December 28, 2016 (Source: Department of Financial Services, Ministry of Finance, these schemes are expected to help increase insurance penetration in lower and lower-middle income population.
- c) **Foreign Re-insurance:** IRDAI allowed foreign reinsurance companies in last fiscal to set up its branches in India, facilitating the overall business operations and help in the evolution of the sector. UK-based reinsurance company, Lloyd's is expected to set up its branch in 2017. Additionally, US-based Reinsurance Group of America, Germany-based reinsurance companies Hannover Re and Munich Re, Switzerland-based Swiss Re and French reinsurer SCOR SE have also received approval from IRDAI to establish their branches in India. With more companies entering the sector, competition as well as operational efficiency is expected to rise, which would help in development and growth of the sector.
- d) **Listing of the five Government owned General insurance companies:** The Union Cabinet has approved public listing of five Government-owned

general insurance companies and also resolved to reduce the Government's stake to 75 percent from 100 percent. This move is expected to bring higher levels of transparency and accountability across the sector including life insurance and enable companies to raise resources from the capital market to meet their fund requirements.

- e) **Other reforms:** The withdrawal of TDS requirements on commissions payable to individual insurance agents during the last budget, for FY 2018, with income below taxable limits will reduce tax hassles for a large number of agents. Also with its focus on social security, the Union Budget announced an assured pension scheme for senior citizens, wherein the Cabinet had given its approval to Varishtha Pension Bima Yojana offering 8% per annum guaranteed rate of return for 10 years.

B. Life Insurance Industry Overview

I. Overview

The Indian life insurance sector is the tenth largest life insurance market in the world and the fifth largest in Asia, based on ` 3.7 trillion of total premium in FY 2016. There are 24 life insurance companies (including LIC) operating in India.

The life insurance industry has evolved considerably catering to the changing landscape and customer needs and leveraging technology developments. With the growing penetration and reach, life insurance industry in India is second only to banks in mobilizing savings and forms an integral part of the capital market. The total premium in the Indian life insurance sector grew at a CAGR of approximately 17% between FY 2001 and FY 2016.

As per an external report, "The Indian insurance sector is set to mark a significant growth in the coming years. The lower level of penetration, favourable demography, initiatives like 'Pradhan Mantri Jan-Dhan Yojana' for enhancing financial inclusion, rising financial literacy along with increase in domestic savings consequent to rise in per capita income are expected to support the growth of insurance sector going forward."

Management Discussion and Analysis

Note: Basis Individual Weighted Received Premium (WRP) as disclosed by IRDAI, Life Insurance Council, HDFC Life Analysis

During FY 2017, life insurance industry collected total new business premium of ` 1,750 Bn, against ` 1,388 Bn in the previous financial year, a growth of 26%. While private sector insurers posted 24% growth in their premium income facilitated by higher individual and group business, LIC recorded 27% growth predominantly due to growth in group portfolio. In Individual WRP terms, private players grew by 26%, while LIC grew by 15%, leading to an overall industry growth of 21% in FY 2017.

The private players continued to consolidate market share in FY 2017, outpacing LIC in terms of Individual WRP. The private player market share increased back to 54% in FY 2017 based on Individual WRP, after hitting a low of 37% in FY 2012. Key growth within Individual segment drivers for private sector includes improved product design and increased focus on channel development.

Trend of private market share

Note: 1. Basis Individual Weighted Received Premium (WRP) as disclosed by IRDAI, Life Insurance Council
2. Top 7 players based on FY 2017 business numbers

Amongst private insurers, insurers with strong distribution arrangement have outperformed the peers. All the top 7 private players have strong insurance distribution arrangement with large banks / NBFCs and other financial institutions termed as bancassurance arrangement. These companies dominate within the individual segment and have consistently witnessed increasing market share since FY 2011, contributing 76% of the private market share in FY 2017 compared to 59% in FY 2011 (based on individual WRP). These bancassurance arrangements are a combination of captive partnership and strategic alliances.

II. Product Mix across private players

Source: IRDAI and Life Insurance Council data, HDFC Life Analysis

Management Discussion and Analysis

Post the regulatory amendments introduced in Sept-10, private sector players shifted the focus from linked products towards traditional / conventional products. The reduced distributors' payout and high expense structure were the key factors which contributed to this shift.

However, the focus is changing towards linked products with improved equity market performance and increasing share of Bancassurance channel. Currently, the product mix is relatively balanced, with increasing focus on need-based selling. There is also an increasing thrust on protection business across players, to help improve the new business margins.

There has been a distinct shift in distribution mix, though Agency and Bancassurance continues to be the two major contributors of new business for private players. Bancassurance channel has emerged as a dominant channel over past years, especially for Top private players. This trend enabled them to grow at a faster pace compared to other players, operating without any strong bank partnership. The agents' count of private players has also reduced over a period of time, from 14.96 lacs in FY 2010 to 9.56 lacs in 9M FY 2017 (-36%). The share of Bancassurance channel has gained momentum on building up of increasing banking penetration in India and Government's focus on financial inclusion through innovative banking models (SFBs, Payment Banks, eWallets etc.)

III. Distribution Mix across private players

Direct channel share (including online) has doubled, versus that in FY 2012, while share of Broker channel has been consistent. Over time, Direct channel has shown significant growth and serves as better controlled mode of distribution. With digital boom and increasing online users, almost all the leading insurers are leveraging the online platform by introducing simplified and customer friendly products across savings and protection segments.

D. Standalone Performance Overview

HDFC Life remained extremely focused on delivering strong operating and financial performance during the year under review. In line with the identified strategy, high focus was maintained on profitable growth and customer satisfaction. The standalone results presented below includes detailed analysis across the key financial parameters tracked by the Company.

• Income statement analysis

The reported Gross Premium Income representing the total premium earned by the Company witnessed strong growth of 19% with growth in both individual and group premium. Income from Investment saw a huge spike during the year,

primarily due to higher unrealised gains implying mark to market gains in equity portfolio, resulting from favourable market conditions during the year (Impact on UL segment is profit neutral for the Company as there is a corresponding reserve increase).

The Company also has an efficient technology platform, which ensures ease of purchase for consumers while enabling rapid integration with distributors, technology and products, along with focus on expanding distribution. This resulted in an increase in the expense ratio to 12.6%. The Premium less benefits payouts saw a steady increase of 18%, reflecting improving quality of business. The result of all the above factors is reflected in 9% growth in the Profit after tax, which stood at ₹ 892 Crs.

Premium income (` Crs)

The total premium collected by the Company during the year saw strong increase of 19% from ` 16,313 Crs in FY 2016 to ` 19,445 Crs in FY 2017 due to healthy growth witnessed in new business and stable renewal premium accretion. The first year regular individual premium business grew by 8% from ` 3,296 Crs in FY 2016 to ` 3,573 Crs in FY 2017. During FY 2017, the Company has added nearly 10.82 lac new policies to its portfolio. The growth in first year premium is primarily driven by our multi-channel approach, coupled with focus on meeting diverse customer needs through our diverse product portfolio of 30 retail products and 10 group products, along with 8 optional rider benefits covering saving, investment, protection and retirement needs of its customers.

The Company's continued focus on better quality of business sourcing, customer retention and persistent efforts in customer education has resulted in increase in renewal premium (individual) by 9% from ` 9,825 Crs in FY 2016 to ` 10,749 Crs in FY 2017. The Company continues to lead in terms of Group business premium which has

Note: Non Par includes non unit portion of unit linked business

The income from investments includes income accrued on investments in the form of interest, dividend, etc. It also includes gains/losses realised from sale of underlying investments and unrealised gains/losses in the unit linked segment i.e. mark to market gains/losses. The investment return in the unit linked segment is directly passed on to the policyholders with corresponding changes in the reserves; shareholders' profits would not have any material impact. The income from investments during the year increased from ₹ 1,959 Crs in FY 2016 to ₹ 11,368 Crs in FY 2017, primarily due to mark to market gains in the unit linked segment compared to losses in the previous year. During FY 2017, BSE Sensex increased by 17% as against a decline of 9% in the previous year.

Other segments (non unit) including shareholders' account witnessed an increase in investment income from ₹ 1,705

• Reinsurance ceded

The increasing proportion of protection business across individual and group segment over the last few years has contributed to the increase in Reinsurance ceded over this period. The reinsurance ceded increased by 27% from ₹ 134 Crs in FY 2016 to ₹ 171 Crs in FY 2017.

Crs in FY 2016 to ₹ 2,811 Crs in FY 2017 mainly due to realised gains increasing by ₹ 669 Crs compared to FY 2016 driven by favourable capital markets and higher interest and dividend income on a higher AUM built by renewals and new business premium.

• Other income

Other income mainly comprises of policy reinstatement fees, interest on revival of policies, interest on policy loans, income on unclaimed amount, etc. During the year, other income has increased from ₹ 70 Crs in FY 2016 to ₹ 104 Crs in FY 2017, primarily on account of income on unclaimed amount of Policyholders of ₹ 62 Crs. The income on unclaimed amount is passed on to the policyholders and is reflected in the liability for policyholders. The increase in the current year was lower due to one-off interest, amounting to ₹ 34 Crs earned on IT refund in the previous year.

The Company pays commission to its distributors on the premium income collected during the period. The commission expense increased from ₹ 702 Crs in FY 2016 to ₹ 792 Crs in FY 2017, an increase of 13%, in line with the underlying business growth and change in product mix. The increase in first year commission ratio reflects the change in product mix with higher proportion of traditional business sold during the year.

• Operating expenses

In line with its strategy, the Company has been working to ensure diversification and strengthening its distribution mix and make efficient use of technology to ensure ease of purchase for the customers. The focus on expanding distribution and enhancing use of technology has resulted in an increase in the operating expenses to total premium ratio to 12.6% versus 11.6% in previous year.

Operating expenses (₹ Crs)

In absolute terms, the operating expenses increased by 30%, driven by increase in costs related to employees, infrastructure, marketing, operational, IT and business

development expenses, in line with the inflation and growth in business.

Employee-related costs form significant proportion of any insurance company, considering the nature of business. While the Company continues to focus on right sizing its branches and improving the reach at the same time along with employee efficiency, the employee costs and infrastructure costs increased in line with the inflation and business growth potential.

With higher business volumes and various customer oriented initiatives, the Company also saw an increase in call centre costs, collection charges and other operations related expenses. IT expenses increased due to Company's strategy of focusing on building a digital ecosystem across functions and customer interactions to improve organisational efficiencies.

The Company has also increased its spending on advertisement and publicity during the year, with an objective to increase insurance awareness and focus on protection business. There was an increase in the costs pertaining to web branding and marketing campaigns and other operational expenses that are directly linked to the number of new policies acquired and underlying sum assured (Stamp duty and Medical fees). Pursuant to an IRDAI order received during the year, ₹ 12.2 Crs was paid to Policyholders account from the Shareholders account in a property matter related to an investment made in 2010. The operating expenses disclosed above include this one off adjustment. The increase in costs during the year is also attributed to one-off expenses pertaining to the proposed Initial Public Offering (IPO) and ongoing merger transaction proposed with Max Life Insurance Limited.

• Benefits paid (net)¹

Total Benefits paid	8,024	1,976	10,000	6,613	1,629	8,242

Note: 1. Including interim and terminal bonuses paid

Management Discussion and Analysis

Benefits paid by an insurance company include the payouts made by the Company against claims on maturity, surrender, withdrawals, etc. The benefits paid by the Company during the year has increased to ` 10,000 Crs in FY 2017 from ` 8,242 Crs in FY 2016. The focus on need based selling and other persistency related initiatives have resulted in relatively lower increase in surrenders and withdrawals from ` 5,780 Crs in FY 2016 to ` 6,406 Crs in FY 2017 compared to increase in the total premium income during the year.

The maturity and money back claims have increased due to higher number of policies completing their policy term and eligibility period for money back payouts respectively, than in the previous year. Also, protection claims have increased in line with expectation, on account of higher protection business written over last few years (Individual term, Group protection and Health).

• Change in valuation reserves

` Crs	FY 2017				FY 2016			
	Unit	Non par	Par	Total	Unit	Non par	Par	Total
Change in Valuation Reserves (net)	8,073	3,929	4,052	16,055	807	2,063	3,059	5,928

Note: Non par includes non-unit portion of unit-linked business

Change in valuation reserves reflects change in the actuarial liability in respect of policies in force and for policies in respect of which premium has been discontinued but a liability still exists. The change in unit reserves represents the change in the fund value of policyholders' fund, under unit linked segment. The increase in change in unit reserves from ` 807 Crs in FY 2016 to ` 8,073 Crs in FY 2017 is in line with the increase in investment income for unit segment, mainly driven by unrealised gains on the investments due to favorable equity market (Refer note on Income on investment). The increase in change in reserves from other segments i.e. Par and Non Par reflects the increase due to new business and renewal premium payments which increases the liability under these policies.

Note: NM represents not measurable

• Other provisions

In accordance with the requirement of IRDAI accounting regulations, the Company has laid down the impairment accounting policy for recognizing diminution in value of investments and its subsequent reversals in Revenue/ Profit and Loss Account. At each balance sheet date, the management assesses impairment loss or further incremental impairment loss/reversal of impairment loss that have been previously recognised. Impairment charge for diminution in the value of investments relates to the impairment loss to the extent of the difference between the re-measured fair value of the security/investment and its weighted average acquisition cost as reduced by any previously recognised impairment loss in Revenue / Profit and Loss Account. Positive charge for diminution in the value of investments in FY 2017 represents the net increase of impairment loss provision on securities during the year owing to fall in valuation price of the impaired securities, beyond the threshold defined in the approved Impairment Policy.

The FFA - Provision for lapsed policies unlikely to be revived represents the lapse/surrender charges on unit-linked policies eligible for revival, but unlikely to be revived on unit-linked policies issued prior to September 2010. As the regulations on unit-linked policies sold from September 2010 does not require an explicit FFA to be shown, the Company is not reflecting the lapse/surrender charges for policies eligible for revival, but unlikely to be revived separately here.

FFA - Profits transferred to Balance sheet for par business reflects the change in surplus arising from par business. The increase in FFA reduced from ` 290 Crs in FY 2016 to ` 161 Crs in FY 2017, due to higher new business strain in the participating fund due to higher volume of participating business.

• Provision for tax

` Crs	FY 2017	FY 2016	Growth
Provision for tax (Revenue Account)	152	175	-13%
Provision for tax (P&L Account)	22	17	33%
Total Provision for tax	174	191	-9%

Management Discussion and Analysis

The total provision for tax reduced from ₹ 191 Crs in FY 2016 to ₹ 174 Crs in FY 2017 on account of increase in income from segments with lower tax rate, leading to a lower provision for tax as compared to previous year.

Profitability

Profit after tax (₹ Crs)

The overall Profit after tax rose by 9% from ₹ 818 Crs in FY 2016 to ₹ 892 Crs in FY 2017 with profits arising from a strong back book off-setting new business strain resulting from new business growth. The Company also paid dividend of ₹ 264 Crs (including Dividend Distribution Tax) during the year, compared to ₹ 216 Crs paid in FY 2016. The Company had total accumulated profits of ₹ 1,613 Crs as on March 31, 2017.

Capital and Solvency Ratio

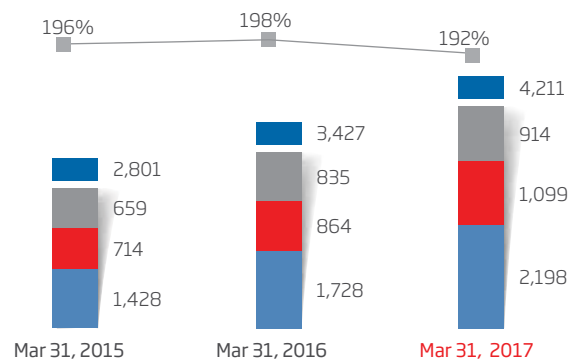

The Company had no capital infusion (except through issuance of ESOPs under the relevant ESOP schemes) in the past 6 years signifying strong capital position which provides resilience to our balance sheet to comfortably manage business cycles. The Company is self-sufficient and has generated healthy profit across the years to fund growth opportunities through internal accruals. The overall share capital including share premium was ₹ 2,193 Crs. The net worth witnessed an increase of 22% during the year to ₹ 3,839 Crs as on March 31, 2017.

Net worth (₹ Crs)

As against a regulatory minimum requirement of 150%, the Company has a stable solvency ratio of 192% as on March 31, 2017 despite paying dividend of ₹ 264 Crs and achieving healthy growth in new business premium. The Company's investment in its two wholly owned subsidiaries viz, HDFC Pension Management Company Limited and HDFC International Life and Re Company Ltd is ₹ 28 Crs and ₹ 93 Crs respectively as on March 31, 2017.

With 130,767 Customers and AUM of ₹ 1,163 Crs as on March 31, 2017, HDFC Pension is the fastest growing Pension Fund Manager under the New Pension Scheme (NPS) architecture.

Amongst Private Pension Fund Managers, HDFC Pension is #1 in total number of Corporates as well as total Subscribers (Corporate + Retail) registered with us for

NPS. Amongst all the Pension Fund Managers, HDFC Pension is #1 in Corporate Subscribers base, #2 amongst all Pension Fund Managers in Net Fund Flow and #3 in Retail Subscriber base and AUM.

Since inception, total number of Corporates and Corporate Subscribers registered by the Company, with the support of group entity HDFC Securities acting as POP (Point of Presence) is equal to total number of Corporates and Corporate Subscribers sourced by all other Pension Fund Managers put together.

During the year under review, the PFRDA (Pension Fund Regulatory & Development Authority) had issued a fresh Request for Proposal ('RFP') for selection of Pension Funds for private sector, pursuant to which the Company had submitted a Technical and Commercial bid. HDFC Pension understands that the Commercial Bid and Technical Bid submitted by HDFC Life have been accepted by the PFRDA and formal issuance of letter of appointment is awaited.

Management Discussion and Analysis

II. HDFC International Life and Re Company

In FY 2016, the Company established HDFC International Life and Re Company Limited ('HDFC International'), a Wholly Owned Subsidiary, in the Dubai International Financial Centre (DIFC), to capitalise on emerging business opportunities, in view of the significant NRI population residing in the region. The license granted to HDFC International allows "Effecting Contracts of Insurance and Carrying out Contracts of Insurance", in respect of life insurance classes.

During the year under review, HDFC International has commenced business operations and inked two individual life reinsurance treaties in the UAE. HDFC

international has also started offering reinsurance capacity for Group Life and Credit Life arrangements across Gulf Cooperation Council (GCC).

In its maiden year of business, HDFC International reported modest revenue of US\$ 193,882.

In the coming years, HDFC International intends to expand its footprints by offering reinsurance capacity to ceding life insurers in other markets. By combining an aggressive outreach into other markets with its ever improving underwriting experience, the Company expects to significantly increase its revenue in FY 2018.

Audit and Risk Management

ENTERPRISE RISK MANAGEMENT

Risk Management is an integral part of the overall business strategy and planning for any entity. It is essential that an organisation has robust risk management policies that are aligned to its strategy and values. As an organisation, HDFC Life firmly recognises Risk Management as an integral building block to proactively manage risks and maximise opportunities related to achievement of its strategic objectives. The Enterprise Risk Management (ERM) framework within the Company operates as a feed-in system to various internal and external stakeholders, Management, and the Board of Directors.

The ERM framework adopted is enabled by the risk oriented enterprise level culture with established risk governance framework, characterised by:

1. Risk management competency throughout the organisation with a consensus that risk management is everyone's responsibility
2. An iterative process of identifying and evaluating risks, setting risk treatment strategies, and monitoring results
3. A dedicated Enterprise Risk Team with defined roles and responsibilities, which functions under the guidance and supervision of Chief Risk Officer ('CRO').

4. Risk oversight by Senior Management & Board of Directors, via Risk Management Council and Risk Management Committee respectively

The key objectives of ERM at HDFC Life are:

1. **Ensure** protection of the interests of our policyholders, shareholders, joint-venture partners, employees, and relevant stakeholders and adherence to internally devised value framework
2. **Ensure** complete adherence to applicable regulatory guidelines mandated by regulatory authorities are met unequivocally maintaining an ethical & strong corporate governance culture
3. **Ensure** proactive identification, assessment, measuring, monitoring, management and reporting of risks with unambiguous objective of minimising risk and maximizing opportunities
4. **Assure** providing a systematic, structured, clear, comprehensive and dynamic mechanism for taking smarter yet informed decision making whilst addressing risk & uncertainty pragmatically
5. **Assure** risk management is tailor-made and not one-size fits all approach by taking human and cultural factors into account in building lean yet effective processes and promoting strong risk culture

Risk Management in HDFC Life

HDFC Life is exposed to different types of risks emanating from both internal and external sources. The Company has in place a Risk Management team, which helps identify, take measures and mitigate each risk. The team is guided by the Company's Risk Management Committee, Risk Management Council and the Senior Management to develop and implement Risk Assurance practices on a pan-organisational basis. The Risk Management team at HDFC Life addresses various types of risks, ranging from those pertaining to strategy (concentration, persistency, direct tax exposure and investment risks) and operations (process, information systems) to those associated with financial processes (cost overruns) to regulatory processes (file and use requirements). Some of the key activities of the team include:

Audit and Risk Management

- Finalising risk appetite metrics
- Developing and monitoring risk registers
- Implementing operational loss database
- Preventing enterprise level process risks
- Driving risk awareness

The ERM framework at HDFC Life encompasses a comprehensive set of practices, which has been integrated at a grass root level within all functions serving the core business as well as shared services. These practices have been developed with a centralised approach to ensure uniform implementation. The functions within the Audit and Risk Management team, responsible for implementation of Risk Management Practices have been highlighted in the following section.

A. ERM Team

The team performs activities to identify various risks, assess exposure of the risks, develop control strategies, and report the same on timely basis to the Board and Management. Some of the key risk management practices adopted are:

Risk Identification - At the corporate level, risk identification is done by Risk Management Team and identified Risk Owners. The risks are tracked and monitored through deployment of risk management tools like risk registers, risk assessments & mitigation projects. Risk tolerances are defined for each of the corporate risks. The risk is either quantified (where possible) or assigned a qualitative statement, which forms the basis of the risk appetite. At the functional level, risk identification is done through Risk and Controls Self Assessments (RCSA). The RCSA is done with due cognizance to any loss events, audit findings or significant developments in external environment. The risk management team aids in assessing the risks and arriving at aggregation of risk scores. Additionally, risks identified in the Functional Risk Registers are managed through developing mitigation strategies, and the same are monitored and reported to relevant governance bodies.

Analysis and Assessment - Risk assessment helps in prioritisation of the risks. Based on the levels of risks defined, the Organisation creates a Heat Map for its key risks. The risks are mapped on basis of Severity and Occurrence as per defined parameters

Operational Loss Database - All losses due to Operational Inefficiencies, Human Errors, Deficiencies in Processes, Systems or control are recorded and monitored in an Operational Loss Database and reported to the Risk Management Council and Committee

Risk Treatment - In HDFC Life adequate internal controls are established and maintained to control the exposure to each source of risk. This involves the following strategies in order to reduce the risk. Multiple strategies can be used per risk event and strategies may change with time.

- **Risk avoidance:** In this strategy HDFC Life decides not to engage in activities that would give rise to the risks that we perceive may breach the Risk Appetite
- **Risk transfer:** In this strategy HDFC Life transfers risks where exposure can be passed to third parties at an acceptable cost
- **Risk mitigation:** In this strategy, HDFC Life ensures that it has adequate controls in place to ensure the risk is within its defined appetite
- **Risk acceptance:** In this strategy, HDFC Life accepts the risk as it typically would be at a residual level where limited controls can be placed or cost of controls outweighs the benefits of controls planned

B. Risk Monitoring and Control Unit ('RMCU', Fraud Management at HDFC Life)

Fraud Risk Management is an integral practice and is central to the ethics and value system of the Company. This is directly influenced by our promises to various stakeholders of safeguarding their interests, be it the policyholders, shareholders, or the regulatory authorities governing the industry and law enforcement agencies. The salient objectives with which the Risk Monitoring & Control Unit operates has been institutionalised below:

- Determine the misconduct and fraud risks that can undermine or negatively impact our strategic objectives
- Design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events and negative surprises
- Reduce the exposure to corporate liability, litigation, and sanctions that may arise from violations of stakeholder expectations and law

Audit and Risk Management

- Derive a realistic value from control investments by creating a sustainable process of managing fraud risks and enhancing performance
- Achieve the utmost levels of business integrity through sound corporate governance, full transparency, and robust internal controls

Some key fraud risk management practices adopted by the Organisation are:

Values Program - The Value Program within HDFC Life has been defined with the objective of imbibing the Values of the organisation at all levels starting from senior management to the grass root. The program is spearheaded by the Chief Value Officers and implementation driven by the Value Ambassadors and Value Guardians

Malpractice Matrix - The Malpractice Matrix is an integral part of HDFC Life's Code of Conduct. As an ethics-driven organisation, we realise the importance to have a proactive deterrent in place to ensure that any kind of Malpractice is dealt with, at the right time and with the right action, to ensure minimum adverse impact. The Matrix includes a comprehensive list of malpractices, which we might come across during the course of the Company's operations. Thus, it has been designed to achieve the following objectives:

- To provide a comprehensive framework for monitoring of operational activities
- To take action against the erring parties
- To ensure transparency in dealing with internal and external risks

Disciplinary Panel for Malpractices - A separate panel has been set up comprising Sr. EVP & Chief Human Resource Officer (Chairperson), Chief Distribution Officer, Chief Values Officers, and EVP - Audit & Risk Management and Company Secretary & Head - Compliance & Legal. Cases with high risk and impact are referred to the Panel for guidance and decision. Additionally, fraud risk assessments carried out by the team are also presented to the Panel to apprise them of fraud risks being faced by the Organisation across geographies, channels etc and guidance taken for development of mitigation strategies.

C. Business Continuity Management

The Business Continuity Management operates in a three-tier structure. The first step is to create a Business Continuity Plan for the critical and important business activities of a function or practice. The Business Continuity Management undertakes the Business Impact Analysis (BIA) while evaluating the processes and services based on the disruption of services to assess customer impact, financial impact, non-financial impact and regulatory impact. Basis this analysis, Recovery Time Objective (RTO) of business critical services are identified, which defines time within which services need to be made available and Recovery Point Objective (RPO) is defined which provides maximum targeted period in which data might be lost from a technology service due to an outage or major incident. The Business Continuity Management draws inferences from these analyses and devises recovery strategies for stress scenarios such as technology unavailability, people unavailability and site unavailability to minimise potential business loss.

D. Internal Audit

The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedures, laws, and regulations.

The Internal Audit Function at HDFC Life works closely with other verticals in Audit & Risk Management (ARM), considering relevant material inputs from risk registers, risk prevention and mitigation reports etc. Internal audits are conducted by in-house Internal Audit ('IA') team and also by the co-sourced auditor. Internal Audit Function includes Concurrent audit which ensures the integrity and completeness of documents submitted and checks if audited transactions are in agreement with laid down procedures. (e.g. AML guidelines, Business rules). The function also undertakes follow-up on engagement findings and recommendations in line with the approved framework and concurrent audit of new business and policy servicing.

Audit and Risk Management

Internal Audit Management Framework operates with the following objectives:

- **Scope:** Scope and authority of the Internal Audit activities are well defined in the Internal Audit Charter, approved by the Audit Committee of the Board
- **Approach:** Risk based internal audits are carried out across all departments, functions and branches based on the annual internal audit plan duly approved by the Audit Committee

- **Objective:** To test, objectively and independently, the design and operating effectiveness of the internal control environment
- **Assurance:** To provide independent and reasonable assurance about the adequacy and effectiveness of the Internal Controls to the Board and the Audit Committee

Internal Audit Governance Framework operates in tandem with the following objectives:

- **Reporting & Monitoring:** The Audit Committee of the Board periodically reviews IA's findings and provides guidance as well. The Management of the Company closely monitors the internal control environment to ensure that IA's recommendations are effectively implemented

Internal Financial Controls

Statutory Auditors are required to report on the adequacy and operating effectiveness of the internal financial controls ('IFC') over financial reporting. However, ensuring adequacy and operating

effectiveness of the internal financial controls system still remains with the Management and the persons charged with governance in the Company.

The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes.

Internal audit function, in addition to ensuring compliance to policies, procedures, regulations, processes, etc., also tests and reports on adequacy of internal financial controls over financial reporting.

Business Review and Outlook

Industry Outlook

The FY 2017 was a critical year for life insurance industry in India. The macro-economic factors and demographic profile continue to support growth for financial services. Players continue to adapt to the changing macro landscape, while competing to hold their turf.

Within the life insurance industry, private life insurers continued to grow at relatively faster rate and gained higher market share within Individual segment. Even under the Group segment, private players continue to gain traction and have delivered healthy growth.

Improving macro trends with India outperforming other emerging markets, increasing traction in equity markets and higher focus on financial inclusion and penetration to increase the financial savings was reflected in 26% growth in Individual New Business Weighted Received Premia (WRP) and 20% growth in Group premia for the private players during FY 2017. At an industry level, the sector witnessed growth of 21% in Individual New Business WRP and 21% in Group premia during the year.

Demonetisation drive launched by Government of India in November 2016 also triggered growth for select players in individual segment, leveraging the spurt in the bank deposits which is reflected in above industry trends.

There also has been steady increase in proportion of business generated through corporate agents comprising banks and other financial services players amongst private players during past 5 years. This channel contributed 52% of total individual reported new business in 9M FY 2017 across all private players (Source: Public disclosures)

On the product segments, reduced allowable charges to distributors' within ULIP segment and higher expense structures led many players to move towards traditional products. However, since 2014 market performance and transparent product structures have helped increase pull for ULIP products. There is increasing demand for protection products and its implicit higher new business margins (NBMs) has resulted in recent focus on the term segment across players.

Company Performance

Individual Business Performance

HDFC Life ranked #3 among private players in terms of Individual WRP with a market share of 12.7% in FY 2017, versus 14.7% in FY 2016. During the year under review, the Company issued 10.82 lac policies in the Individual segment. The Company continues to offer diversified product suite across Linked, Participating and Non Participating segments.

The Company also continued its focus on pure protection segment including mortality and morbidity coverage,

Directors' Report

reflected through increase in overall new business sum assured by 43%. Overall, traditional Non Participating products contributed 13% of Individual APE, versus 14% in FY 2016 and Participating products contributed 35% versus 30% in FY 2016. The Linked business continued to dominate the product portfolio of the Company contributing 52% versus 56% last year.

In line with its strategy, the Company has been working to ensure diversification and strengthening its distribution mix across Corporate agents, Individual agents, Brokers and Direct channels, including Online. Digital remains a key thrust area and the Company has built a robust technology platform for its distributors and customers to leverage its digital capabilities.

The Company has an efficient technology platform, which ensures ease of purchase for consumers, while enabling rapid integration with distributors. Digital procurement, fulfillment and customer servicing continue to be the key focus areas. In FY 2017, over 98% of the proposal forms were submitted through digital medium and 70% of renewal business was received through online modes. The Company has various process and system controls, delivery assurance and internal and concurrent audits, that leads to lower dependency risks, scalability and ability to anticipate any issues or concerns.

Group Business Performance

Within Group business segment, the Company maintained its #1 rank amongst private players, with market share of 24.3% in FY 2017, versus 18.3% in FY 2016 (rank #1) based on new business received premium. The Company focused on selling protection oriented products, even within this segment, through multiple partners. The New Business sum assured under the Group category increased from ₹ 165,655 Crs in FY 2016 to ₹ 285,454 Crs, covering 1.98 Crs lives during FY 2017.

Overall Business Performance and Financial Review

The Company continued to deliver strong operating and financial performance during the year under review. In line with the identified strategy, high focus was maintained on profitable growth and customer satisfaction.

The total premium grew by 19% in FY 2017, with 15% growth in Individual new business premium and 59% in Group premium.

The Company's continued focus on better quality of business sourcing, customer retention, and persistent efforts in customer education has resulted in an increase in renewal premium by 9% in FY 2017 to ₹ 10,749 Crs. The 13th month persistency ratio improved from 79% in FY 2016 to 81% in FY 2017 and 61st month persistency improved from 50% in FY 2016 to 57% in FY 2017 (based on original premium method).

For FY 2017, the Company earned IGAAP profits of ₹ 892 Crs, versus ₹ 818 Crs in FY 2016, i.e. an increase of 9%. The Company ended the year under review with an accumulated profit of ₹ 1,613 Crs, post payment of interim dividend of ₹ 264 Crs including dividend distribution tax (DDT).

Backed by healthy business performance and persistency, the Assets under Management (AUM) for the Company crossed the milestone of ₹ 90,000 Crs mark during the year under review and saw a growth of 24% to ₹ 91,742 Crs as on March 31, 2017 versus ₹ 74,247 Crs, as on March 31, 2016. Balanced debt-equity mix of AUM was ensured, with debt-equity proportion of 59:41 as on March 31, 2017.

The Company increased its presence across the country, with several new tie-ups and partnerships across traditional and non-traditional partners including NBFCs, MFIs, SFBs, etc. Total branch presence of the Company increased to 414 branches during the year under review across 819 cities.

During the year, the Company has increased its exposure and presence in pension segment and re-insurance market in UAE, through its two wholly owned subsidiaries - HDFC Pension Management Company Limited ('HDFC Pension') and HDFC International Life and Re Company Limited ('HDFC International').

The Company is committed to its positioning as the most preferred life insurance company in India, delivering value for all its stakeholders. Improving business quality, ensuring seamless customer journey and delivering healthy returns continue to be the key focus areas for the Company. Digital ecosystems and leveraging technology will be an important driver in this journey and area of investment, along with new distribution avenues to achieve above objective.

Policyholder and Customer Service

HDFC Life is committed to provide seamless services to the customers and the claimants in the shortest possible

turnaround time across the life cycle of the policy with minimum documentation and data requests.

Various initiatives have been implemented by the Company during last year, including:

- 1) Adopting Tele-underwriting capability
- 2) Medical underwriting based on customer's executive health reports.
- 3) Financial risk assessment through use of credit bureau reports
- 4) Deployment of OCR into the workflow interface
- 5) Deployment of robotics
- 6) Adoption of 'Claims Assist' for speedier completion of the policy documentation
- 7) Facility to the customers for submission of maturity/ money back/ pension/ annuity documents through Whatsapp;
- 8) Differential process for HNI claimants
- 9) Lean cell for taking care of claims of Defence personnel.

Specialised underwriters are in place for the overall underwriting and related process, including dedicated people for online and group customers.

The above initiatives have helped us improve customer experience and enabled reducing processing time.

During the year under review, the Company had achieved the below milestones:

- 1) The Company stands amongst the best in the industry on overall Claims Settlement Ratio of 99.2% in FY 2017

- 2) The Company's turnaround time for non investigated claims improved to 'within 3 days' from '7 days' in FY 2017;
- 3) In the Micro Finance Business, 100% of the claims processing is completed within 2 days of document submission;
- 4) Approximately 98% of the Money Back payouts, and 99% of the Annuity Payments are done on the due date.

For renewals, around 78% of the customers paid premium via alternative payment methods such as auto debits (55.5%) and online payments (21.7%), which comprises 70% of the Company's total collections, versus 61% last year. The Company strengthened its previous year initiative of last mile connectivity with the lapsed and paid-up customers by educating them on importance of revivals.

Even prior to the Central Government's focus to move towards 'Cashless' economy, the Company had stopped accepting cash payment for renewals at HDFC Life branches in phases, with a pan-India phasing out made effective from July 1, 2016. The Company continues to offer multiple options to its customers for easy renewal payment, including online payment through Credit Card, Debit Card and multiple payment wallets, payment through Inbound IVR, MSwipe, NEFT/ eCMS, and offline facility to pay the premium at HDFC Life branches and numerous other partner branches including HDFC Bank, Axis Bank, cheque drop boxes etc.

HDFC Life has continuously focused on creating differentiators to meet customer needs and expectations. The Company has proactively identified and owned niche customer segments and product categories, to drive appropriate actions. The Company aspires to attain leadership position in select identified segments, by delivering unique sales, products and service experience.

HDFC Life's product portfolio comprises of solutions catering to the varied individual customer needs across Protection, Pension, Savings, Investment and Health category. HDFC Life also offers different products for varying needs of employers, ranging from term insurance plans for pure protection to voluntary plans such as superannuation and leave encashment.

During the year under review, with an objective to further insurance penetration and financially secure Indian households, the Company forayed into the micro-insurance segment by launching two products, HDFC Life Group Jeevan Suraksha and HDFC Life Group Credit Suraksha.

The Company also launched individual participating savings product, HDFC Life Pragati, with features and benefits suitable for low to middle income individuals, which have not been reached so far due to affordability factor. This

product has a potential to cater to the untapped Indian households within lower income bracket.

Further, the Company expanded within the Health category, by launching HDFC Life Easy Health that provides hassle free comprehensive protection against critical illness, surgical procedures and hospitalisation expenses under one plan without any medical underwriting.

The Company also added HDFC Life Capital Shield product in the Unit Linked category, to cater to the needs of the investors looking to tap the potential upside of the financial markets while having an assurance of Capital Guarantee.

At the end of the year under review, HDFC Life has 30 Individual and 10 Group products, with 8 Riders available for its customers.

Human Resource and People Development

HDFC Life gives paramount importance to employee satisfaction and overall development of over 14,800 employees that constitute its workforce. The Company earnestly strives to distinguish itself from the peers and aspires to be counted amongst the best places to work across various sectors.

Directors' Report

During the year under review, the Company has undertaken various initiatives to support business through organisational efficiency, and various employee engagement programmes, which have enabled achievement of higher productivity levels. The Company continued to focus on developing leadership as well as technical and functional capabilities of employees in order to meet future talent requirement.

Philosophies that drive talent management included having the most skilled and engaged employees discharging their current roles, while developing a strong bench of ready talent. We continued with our robust talent review and development processes across the board, which assessed potential and developmental needs of talent. Output of these reviews aggregated into structured learning interventions that were executed by top institutions like ISB and the IIM A.

Internal talent was given ample opportunities to take up managerial roles through a transparent, fair and scientific Internal Job Posting (IJP) process. Cross functional movements of talent were encouraged and enabled through talent review and assessment process to provide holistic understanding of business to employees.

Company's L&D framework boasts of talented and experienced resources who ensure that interventions get customised to specific and special training needs, thereby maximizing impact and efficacy. In course of the year, the core focus area has been towards implementation of digital learning solutions like a Mobile learning app, thereby enhancing the learner reach, in addition to Just-in-Time access to learning content, which is critical for efficiency on job delivery.

The HR journey continued to be built on the bedrock of technology and innovation, with state of the art offerings like HR mobile application to build an enviable mobility platform that is rapidly transforming employee workforce productivity.

Investments

During the year under review, the global equity markets have seen significant gains, as global concerns on growth and anxiety over the fate of commodity economies faded. The pick-up in commodity prices further helped pull the price indices in the developed economies away from the deflation zone. On back of above developments, respective Central Banks regained confidence to initiate steps for

rolling back the extreme accommodation provided by their respective monetary policies.

In the domestic market, the recovery in the corporate earnings has been relatively slow. Withdrawal of high denomination currency notes by the Government further impacted the corporate earning profile. However, the improvement in risk appetite globally and strong flows from domestic investors helped the equity markets overcome the concerns over earnings and post strong gains for the year.

During the same period, bond yields saw substantial softening on the back of easing inflation. The Reserve Bank of India ('RBI') cut rates lower during the year, but the extent of the rate cuts were lower than expected. Consequently, bond yields retraced from the low levels seen during the year.

HDFC Life's equity funds performed well during the year, with all the key equity funds performing in line with the respective benchmarks and the peers. The Company's bond funds have been managed dynamically to calibrate the positions appropriately, based on the risk levels in the portfolio. The fund returns have out-performed their respective benchmarks and have also performed well against peer funds.

The investment funds of the Company are managed as per the stated objectives laid down in the Investment Policy, Asset-Liability Management Policy ('ALM'), and respective Funds' objectives. These policies lay down the asset allocation and risk appetite guidelines for different funds, some of which have in-built guarantees. Fund allocation is tracked on a regular basis and is backed with suitable assets. During FY 2017, the asset allocation in the Company's conventional and shareholder funds was in line with the ALM policy.

HDFC Life total AUM as on March 31, 2017, was ₹ 91,742 Crs. This comprised assets of ₹ 53,800 Crs held under the unit-linked funds and ₹ 37,942 Crs held under the conventional funds and shareholders' funds. The corresponding numbers for the previous year were ₹ 45,727 Crs and ₹ 28,520 Crs respectively.

Information Technology

FY 2017 has seen the adoption of many cutting edge technologies such as Blockchain, Internet of Things (IOT), Robotics Process Automation (RPA), Chatbots,

Directors' Report

among insurance providers globally. Further, there is an emergence of a new breed of Insuretech start-ups looking to disrupt the insurance value chain.

HDFC Life intends to be the leading digital insurer in the country. The Technology Enabled Business Transformation (TEBT) programme has, over the last 24 months, created a service driven platform that makes it easier for the distribution partners to integrate with HDFC Life. This has helped in building an agile and multi-distribution model that fits into the strategic objectives of the Company.

During FY 2017, the Company undertook an initiative to set up the entire sales cycle on the mobile platform. This initiative, termed Mobility 1.0, significantly reduced customer acquisition cycle time, increased sales productivity and reduced paper trail throughout the Company. In addition to the productivity improvements, this allowed sales team to work independent of the branch infrastructure. This also resulted in reducing cost for sales hubs. The new and improved individual portal for Financial consultants, was also launched during the FY 2017 as part of TEBT program.

To further improve the Digital Ecosystem, Mobility 2.0 was introduced during FY 2017, to leverage and build on the capabilities created in Mobility 1.0. The modules include:

- i. geo-capabilities that help in lead allocation, partner visit tracking, and customer heat maps;
- ii. India stack integration-integration with Aadhar, including IRIS authentication, e-sign and UPI;
- iii. sales force management with daily task sheet and audio huddles;
- iv. sales aids such as auto financial planning tool, auto filling of forms, pre-approved offers, expert on call;
- v. customer servicing capabilities;
- vi. virtual sales assistant; and
- vii. mobile learning.

Besides, the Company has been working with its Bancassurance relationships and integrating with the bank CRM systems. This has led to STP (straight through processing) process for issuance of policies and a unique digital experience for customers of select Bank partners.

The Company has continued with its efforts to tighten controls and prevent customer complaints. A completely automated and sophisticated control mechanism has been

implemented during FY 2017. The resulting capability has enabled proactive identification of anomalies in critical areas like compliance to file and use requirements and payout computations.

The Company also conducted a Hackathon with a focus on three broad based themes - Design, Data Science and Mobility.

The Company has been re-certified on ISO 27001:2013 for its data centre and operations. Several cyber security initiatives have also been implemented during the year such as Next-Gen Firewall, Intrusion Prevention System, Security Incident and Event Management and DDOS services.

Awards

The Company received more than 40 awards and accolades during the year under review across financial disclosures, customer service, technology, digital solutions, products, human resources, marketing, etc. The Company received the National Quality Excellence Award 2017 for being the most innovative Company. The Company also received Golden Shield award for Excellence in Financial Reporting for their Annual Report FY 2016 from ICAI (The Institute of Chartered Accountants of India).

Regulatory Landscape

During the year under review, some of the key regulations / guidelines etc., issued by the Insurance Regulatory and Development Authority of India ("IRDAI" / "Authority") include:

- Circular on Implementation of Indian Accounting Standards ("Ind AS") for insurance sector. The Ind AS implementation will have impact on financial reporting systems and processes significantly. The Company is taking necessary steps for implementation as per timelines notified by the Authority, to achieve transition to Ind AS by FY 2018. Representatives from the Company are also part of Steering Committee set up by the IRDAI, which is overseeing implementation of Ind AS in the industry.
- The Authority revised the Guidelines on Corporate Governance for insurers in India ('Guidelines'), which includes revised provisions on certain Corporate Governance practices, appointment of Managing Director/ Chief Executive Officer/ Whole Time Director

Directors' Report

and other Key Management Persons as well as the appointment of statutory auditors of insurers. These are applicable from FY 2017 onwards, and have been implemented as required.

- With a view to further promote digital ecosystem and in policy holder interest, the Authority has required insurers to compulsorily issue policies in electronic form, beyond a certain sum assured threshold. It has also permitted use of electronic proposal form. These will promote efficient processes and speed up policy issuance.
- Revised Health Insurance regulations were issued by the Authority allowing life insurers to offer long term Individual Health Insurance products for term of 5 years or more, with premium uniformity for blocks of 3 years. Importantly, the Authority has barred life insurers from offering indemnity based products. In view of this, the Company had to withdraw its indemnity based health product, impacting business in this segment.
- The revised Investment regulations have prescribed several new provisions, including restrictions on investing in fixed deposits and corporate deposits of promoter group companies, Chief Risk Officer to be part of the Investment Committee and custodian not to be part of the promoter group, etc. The Regulation also requires Statutory auditors to confirm compliance with implementation of Investment Policy by Investment Committee, and quarterly Board review of the fund wise and product-wise parameters.
- The Authority notified new regulations effective April 1, 2017 on Payment of Commission to insurance agents and intermediaries. The underlying approach proposed uniformity across business segments vis-à-vis the expenses of management, commissions and manner of computation of solvency. Regulations also provides for a Board approved policy on the subject.

IRDAI also released several discussion papers/draft guidelines on key aspects of business and operations, including Listing of Indian Insurance Companies; exposure drafts on proposed revision in financial statements regulations; Protection of Policyholders' Interests and Outsourcing of activities etc.

Rural and Social Sector Obligations

The Company maintains dedicated focus on undertaking rural business, and endeavors to tailor its products and processes to support these businesses, considering customer needs.

As part of its overall business, the Company has achieved prescribed regulatory targets of social and rural business, as follows:

- Rural business - Achieved - 21% versus prescribed requirement of 20% of overall business
- Social business - Insured - 8,04,612 social lives versus prescribed 7,68,851 social lives

Solvency

The IRDAI requires life insurers to maintain a minimum Solvency Ratio of 150%. The Solvency Ratio is calculated as specified in the IRDA (Assets, Liabilities, and Solvency Margin of Insurers) Regulations, 2016. As compared to the minimum requirement of 150%, the Company's Solvency Ratio, as at March 31, 2017, was 192%.

Dividend & Reserves

During the year under review, an interim dividend @ ₹ 1.10 per equity share (face value of ₹ 10/- each) was declared by the Board of Directors and paid to the Shareholders. The Board has recommended the same to be confirmed as the Final Dividend for FY 2017. Necessary resolution is being proposed for the purpose at the ensuing 17th Annual General Meeting ("AGM").

The Company has carried forward a total of ₹ 627.7 Crs to its Reserves. The Company had accumulated profits of ₹ 1,613.5 Crs on March 31, 2017.

Capital & Shares

The Company's paid up equity share capital increased marginally from ₹ 19,952,881,380 as on March 31, 2016 to ₹ 19,984,752,830 as on March 31, 2017 pursuant to allotment of 2,772,995 equity shares upon exercise of Options under Employees Stock Option Scheme 2014; and allotment of 414,150 equity shares upon exercise of Options under Employees Stock Option Scheme 2015. The said allotments were made post requisite approval from the Authority.

The Shareholding Pattern is given elsewhere in this Annual Report.

Initial Public Offering and Merger Proposal

During the year under review, the Board of Directors of the Company approved taking steps to initiate the process for an Initial Public Offering (IPO) of the Company by way of an offer for sale by Housing Development Finance Corporation

Directors' Report

Limited, the Company's Indian Promoter Company, upto 10% of the Company's paid-up and issued equity share capital. This was subject to relevant regulatory and other approvals, as applicable.

On August 8, 2016, the Board of Directors of HDFC Life, Max Life Insurance Company Limited ("Max Life"), Max Financial Services Limited ("Max Financial") and Max India Limited ("Max India") at their respective board meetings, approved entering into definitive agreements for the amalgamation of the businesses between the above entities through a composite Scheme of Arrangement ("Scheme"), in a manner, as below:

Step 1: Max Life Insurance Company Limited will be merged into Max Financial Services Limited

Step 2: The life insurance undertaking will be demerged from Max Financial Services Limited into HDFC Life

Step 3: The residual business of Max Financial Services Limited would be merged into Max India Limited

Step 4: HDFC Life would become a listed Company

The proposed transaction will create a large company with differentiated scale and portfolio, with wider reach to expand in a growing life insurance sector. While the transaction will deliver attractive value proposition for HDFC Life and Max Group shareholders, it will also benefit the Policyholders by providing them with enhanced product portfolio and touch points. Employees of both the entities will reap benefits out of the transaction, in terms of greater opportunities across functions and geographies.

Subsequent to the approval by the Board of Directors of respective Companies, a joint application was filed with the IRDAI by the Company and Max Life seeking its in-principle approval on the Scheme on September 21, 2016. The IRDAI had expressed certain reservation on the merger transaction structure, post which the Company has given suitable clarification, supported with legal views and analysis.

The Company is presently awaiting / will require regulatory approvals from the Insurance Regulatory and Development Authority of India, Competition Commission of India, the Securities and Exchange Board of India, Stock Exchanges and Hon'ble Courts / National Company Law Tribunal (NCLT) amongst others. As part of NCLT approval process, the Company will also seek approval of its Members, as may be directed by the NCLT.

During the year under review, AUM of the corporate and retail sector across all Pension Funds in the NPS architecture grew by 98%, from ₹ 3,563.9 Crs to ₹ 7,017.7 Crs, which included funds of PSU Banks' employees where the Fund Manager was either of three Government Sector PFMs.

HDFC Pension's AUM as on March 31, 2017 stood at ₹ 1,163.0 Crs i.e. a growth of 209%. HDFC Pension sourced 535 new Corporates in FY 2017. The Subscriber base under 'Corporate' sector category stood at 51,920 in FY 2017 (i.e. a growth of 85% over FY 2016), whereas the Subscriber base under retail sector stood at 78,847 in FY 2017 (i.e. a growth of 140% over FY 2016).

Legal matter

In January 2014, a fresh Request for Proposal ('RFP') was floated by the PFRDA seeking bids from Sponsors for selection of pension fund managers afresh to manage the pension funds. In response to the RFP, HDFC Standard Life Insurance Company Limited ('HDFC Life' / 'the Sponsor') had submitted its technical and commercial bid. The technical bid made under RFP was opened in April 2014 and the bid submitted by the Sponsor was not accepted by the PFRDA on technical grounds of not having profitability for a period of 3

years. The Sponsor, therefore, filed a Writ Petition before the Hon'ble High Court of Delhi, challenging the said rejection. The Hon'ble High Court of Delhi by its Order dated May 15, 2014 quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to evaluate the bid in accordance with the steps set out in the RFP. While the PFRDA cleared the Sponsor's technical and commercial bid and the Sponsor even agreed to match the lowest commercial bid, the PFRDA declined to grant the Sponsor a 'Letter of Appointment'. The Sponsor therefore filed another Writ Petition before the Hon'ble High Court of Delhi against the rejection. Vide its Order dated December 18, 2014 the Hon'ble High Court of Delhi quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to grant HDFC Life a 'Letter of Appointment' to act as a Sponsor. Subsequently, the PFRDA has filed a Special Leave Petition before the Hon'ble Supreme Court of India challenging the above said Order dated December 18, 2014. The Hon'ble Supreme Court, by its Order dated March 9, 2015, refused to grant the PFRDA any ad-interim relief and the matter is presently pending hearing. On March 27, 2015, complying with the High Court order, the PFRDA had issued a 'Letter of Appointment' in favour of the Company, stating inter alia that such appointment is subject to the outcome of the above proceedings filed before the Hon'ble Supreme Court.

It may be noted that the PFRDA (Pension Fund) Regulations, 2015 were notified in May 2015, pursuant to which re-registration of all pension funds was sought by the PFRDA. HDFC Pension has submitted its application for the same, and a response from the PFRDA is awaited. However, vide a letter dated June 24, 2016, the PFRDA, while acknowledging our submission of Annual Fees, had granted an extension to continue as a Pension Fund until the selection of Pension Funds in terms of process specified under PFRDA (Pension Fund) Regulations, 2015. This extension was subject to the Order of the Supreme Court of India on the appeal filed by PFRDA against the Order of the High Court of Delhi described above.

During the year under review, the PFRDA issued a fresh Request For Proposal ('RFP') for selection of Pension Funds for private sector, pursuant to which the Sponsor had submitted a Technical and Commercial bid. On November 29, 2016 the PFRDA issued a notice that the Commercial Bid

Directors' Report

would be opened on November 30, 2016 wherein the name of HDFC Life was included which implies that the Technical Bid of HDFC Life as a Sponsor has been accepted. HDFC Life is also given to understand that the Commercial Bid submitted by HDFC Pension has also been accepted by the PFRDA and formal issuance of letters of appointment is awaited by all Companies.

2. HDFC International Life and Re Company Limited ("HDFC International")

In FY 2016, HDFC Life established HDFC International Life and Re Company Limited ('HDFC International'), a Wholly Owned Subsidiary, in the Dubai International Financial Centre (DIFC), to capitalise on emerging business opportunities, in view of the significant NRI population residing in the region.

HDFC International was established with the primary objective of offering life reinsurance capacity in the UAE and other GCC nations. The license granted to HDFC International allows "Effecting Contracts of Insurance and Carrying out Contracts of Insurance", in respect of life insurance classes.

During the year under review, HDFC International has commenced business operations and inked two individual life reinsurance treaties in the UAE. HDFC International has also started offering reinsurance capacity for Group Life and Credit Life arrangements across the GCC region.

Financials and Business Outlook

During the first Financial year, HDFC International earned a Gross Income of US\$ 354,192 while its expenses stood at US\$ 1,327,218. The period under review ended with a loss of US\$ 973,027. The financial performance numbers are for the period from January 10, 2016 to March 31, 2017.

During the period under review, HDFC International signed reinsurance treaties for two distinct lines of individual life business, with one of the largest local insurers in the UAE. It also offered reinsurance capacity for two group life schemes, also with the same ceding insurer.

HDFC International also returned a modest Underwriting Income (Technical Profit), which is testimony to the strength of its

underlying underwriting and risk assessment processes.

In the years to come, HDFC International intends to expand its footprints by offering reinsurance capacity to ceding life insurers in other markets. By combining an aggressive outreach into other markets with its ever improving underwriting experience, it expects to significantly improve its revenue streams in FY 2018.

Swabhimaan / Corporate Social Responsibility

As part of its initiatives under Corporate Social Responsibility ("CSR"), the Company has undertaken projects in various areas including Education, Livelihood, Health, and Rural Development. These Projects are undertaken in line with the CSR Policy and are in accordance with Schedule VII of the Act, read with the Rules framed under the said Act.

A more detailed write-up including details of the CSR projects undertaken, their monitoring, details on the implementing agencies, amounts spent and the requisite Responsibility Statement are given in Annexure 2 of this Report, and forms part of this Directors' Report.

Related party transactions entered during the year under review were in the ordinary course of business and on an arm's length basis, thus not requiring Board/ Shareholders' approval.

M/s GM Kapadia & Co, Chartered Accountants, reviewed the related party transactions for each quarter, and their report is placed at the meeting of the Audit Committee, along with details of such transactions.

As per Accounting Standard (AS) 18 on 'Related Party Disclosures', the details of related party transactions entered into by the Company are also included in the Notes to Accounts.

Directors' Report

Ind AS Roadmap

The Ministry of Corporate Affairs (MCA) issued a press release on January 18, 2016, announcing the Indian Accounting Standards (Ind AS) roadmap for banking, insurance and Non-Banking Financial Companies (NBFCs), requiring companies to prepare Ind AS based standalone and consolidated financial statements for FY 2019 with comparatives of FY 2018. Consequently, IRDAI issued a circular dated March 1, 2016, to guide and facilitate insurance companies towards Ind AS implementation. In compliance with the above circular, the Company has formed a Steering Committee headed by Executive Director and Chief Financial Officer, along with members from cross-functional areas to initiate Ind AS implementation process in the Company. The Company has also nominated the nodal officer to IRDAI, to facilitate smooth implementation of Ind AS.

During the year, in accordance with IRDAI's direction to few shortlisted insurance companies, the Company performed a test run to carry out an impact study and identify issues in the preparation of the proforma financial statements as per Ind AS and submitted our results with key recommendations to IRDAI. In accordance with the above referred circular dated March 1, 2016, the Company started submitting the proforma Ind AS financial statements from quarter ended December 31, 2016 to IRDAI. During the year, IRDAI issued Exposure Draft of IRDAI (Preparation of Financial Statements of Insurers) Regulations, 2017 based on the report of the 'Implementation Group on Ind AS' formed by IRDAI. In accordance with the requirement, the Company submitted its comments/suggestions to IRDAI on the said exposure draft. The final regulations from IRDAI are awaited.

The Company has prepared a broad roadmap for Ind AS implementation covering the aspects related to evaluation of Ind AS technical requirements, systems and processes, business and people impact and project management. The Audit Committee of the Board is overseeing the progress of the Ind AS implementation process and reports to the Board at quarterly intervals.

Secretarial Audit Report

The Secretarial Audit as required under the Act, was undertaken by M/s NL Bhatia & Associates, Practising Company Secretary. The Auditor has not made any

qualification, reservation or adverse remark or disclaimer in his Reports for FY 2017.

The Secretarial Audit Report for the FY 2017 is enclosed hereto as Annexure 4 and forms part of this Report

Auditors

M/s Price Waterhouse Chartered Accountants LLP, and M/s GM Kapadia & Co, Chartered Accountants, are the Joint Statutory Auditors of the Company.

The Joint Statutory Auditors have not made any qualification, reservation or adverse remark in their report for FY 2017.

As per the IRDAI Regulations, a Statutory Auditor can conduct audit of an insurance Company for a maximum period of 5 years at a time. Further, as per the Act, an audit firm can be appointed as Statutory Auditor for not more than two terms of five consecutive years.

Thus, in accordance with the IRDAI Regulations read with the provisions of the Act, the appointment of M/s Price Waterhouse Chartered Accountants LLP was ratified, and subject to annual ratifications is valid upto the conclusion of the 19th AGM, at the last AGM. This was in view of M/s Price Waterhouse Chartered Accountants LLP having already completed 2 years of office at the time of appointment at the last AGM held on July 14, 2016. Further, M/s GM Kapadia & Co, Chartered Accountants, were newly appointed for a term of 5 years, i.e. upto the conclusion of the 21st AGM, at the preceding AGM.

Accordingly, in view of the provisions of the Act, and IRDAI Regulations, the Shareholders are requested to ratify the appointments of M/s Price Waterhouse Chartered Accountants LLP, and M/s GM Kapadia & Co, Chartered Accountants for FY 2017.

The Joint Statutory Auditors, being M/s Price Waterhouse Chartered Accountants LLP and M/s GM Kapadia & Co, Chartered Accountants, have confirmed their eligibility to act as Statutory Auditors. The Resolution for ratification of their appointments is included in the Notice of the ensuing Annual General Meeting.

Report on Corporate Governance for the financial year ended March 31, 2017

B. Board Committees

The Board of Directors have constituted various Committees in line with Governance needs, and considering the provisions of Corporate Governance Guidelines, other IRDAI Regulations and the Act.

Pursuant to the IRDAI Corporate Governance Guidelines ('Guidelines'), which were notified on May 18, 2016, the Company realigned the Terms of Reference of its Board Committees viz. Nomination & Remuneration Committee, Risk Management Committee, Investment Committee and Policyholder Protection Committee. Besides, pursuant to the provisions of the said Guidelines, Board of Directors approved the reconstitution of the Investment Committee and Policyholder Protection Committee effective July 19, 2016. Further, an external expert/ representative of customers was appointed as an Invitee on the Policyholder Protection Committee effective July 19, 2016. Further, during the FY 2017, in view of certain organisational changes, the Audit Committee, Risk Management Committee, Policyholder Protection Committee, and the Corporate Social Responsibility Committee were reconstituted, the details of which have also been mentioned in the Directors' Report.

The Board Committees are provided, on a timely basis, with requisite information and detailed agenda papers, together with necessary supporting papers, as required. During the discussions at the meeting of Independent Directors, the Directors expressed satisfaction on quality, quantity and timeliness of the flow of information between the Company Management and the Board, including to the Board Committees. The Directors felt that Board Committees' performance was satisfactory, and they expressed satisfaction with the conduct and efficiency of the Board Committees' work.

The details of the various Board Committees, including revised composition, wherever applicable, are given below:

C. Other Key Governance Elements

a) Values Framework

At HDFC Life, a strong Values foundation is a prerequisite, since these Values portray the Company's philosophy and its aspirations. The Values Framework 'EPICC' (Excellence, People Engagement, Integrity, Customer Centricity, and Collaboration) is the foundation of Company's strategic growth charter and it is ingrained in the philosophy of its business. As part of institutionalizing the Values Framework, the Company's 2 senior management employees have been designated as Chief Values Officers ('CVO'), and these officials act as the custodian of the Company's Values, and they promote adherence to the Values within the Company. The 2 Chief Value Officers, who are also a part of the Company's Executive Council, work upon institutionalisation of Values within the Company, which inter alia includes imparting training, designing incentives, appraisal system, potential review process, leading by example from the leadership team etc., that will embed values in every decision making process. Further, all Vice Presidents and above ranked employees are assigned branches and have been nominated as 'Value Ambassadors' for their designated branches. Till date around 90 senior leaders have been identified by the Company as Value Ambassadors. The Value Ambassadors, along with the CVOs, undertake an outreach programme on Value awareness, mentor the local leadership and own these branches from 'Values' perspective. The Value

Report on Corporate Governance for the financial year ended March 31, 2017

Ambassadors are supported by 'Values Guardians' in branches, who help in embedding the Values in every employee through execution of various Values initiatives.

The Company has also put in place framework to assess improvements in Values through certain branch/ channel metrics. With a view to adequately motivate the employees, Values related performance recognition have also been put in place.

b) Performance Evaluation, and Meeting of Independent Directors

The Board evaluates annually the performance of Directors, Chairman/Chairperson of the Company, the Board and its Committees. As a part of this evaluation exercise, views/feedback were sought from Directors through a structured questionnaire eliciting responses on various aspects of Board's functioning, performance of Committee Members and Directors and quality/timeliness of information flow to the Board. The responses received were reviewed at a meeting of Independent Directors, Nomination & Remuneration Committee and also the Board, keeping in view the requirements of the Companies Act. No material adverse observations had been made, and the process/flow of information was found satisfactory.

c) Compliance

In accordance with the compliance procedures of the Company, quarterly confirmation on compliances is obtained from the relevant Heads of Departments. The Compliance Officer also places before the Audit Committee of Directors, a Compliance certificate duly signed by the Compliance Officer, Executive Director & Chief Financial Officer and Managing Director & Chief Executive Officer, confirming compliances, as well as deviations, if any, along with the steps taken to rectify the deviations and prevention of the occurrence in future, as applicable in a given case.

d) Oversight of Subsidiary Companies

With a view to have adequate compliance oversight on the activities of its Subsidiary Companies, apart from the review of business performance, the Company, on a quarterly basis, obtains compliance confirmation and regulatory/ governance updates from each of its subsidiaries.

e) Key Policies and Framework

The Company has put in place various policies in line with the regulatory requirement/as a control/ policy framework including amongst others Risk Management Policy, Anti Money Laundering Policy, Asset Liability Management Policy, Whistleblower Policy, Investment Policy, Outsourcing Policy, Cyber Security Policy, Customer Grievance Policy, Fraud Management Policy, and Underwriting Policy. The Policy is reviewed on an annual basis by the Audit Committee and the Board of Directors of the Company.

v) Investment Policy

The Investment Policy for the Company outlines the process and the principles for the management and investment of the assets under different fund categories (Policyholder and Shareholder). The said Policy inter alia defines the investment objectives and processes across funds, and covers all the aspects related to investments, as defined by the IRDAI Regulations - Fund Management Strategies, Stop Loss Policies, Securities Trading limits, Asset Liabilities Gaps etc. The Investment Committee of the Board of Directors sets the contours of the investment activity, process, prudential risk limits and performance objectives. The Policy is reviewed by the Investment Committee on half yearly basis, and thereafter it is placed before the Board as well for its review.

vi) Risk Management Framework

A separate report on Enterprise Risk Management

framework has been included in this Annual Report, describing the enterprise risk architecture.

vii) Asset Liability Management Policy

The Asset Liability Management Policy sets out the following with regards to investments and assets of the Company: i.e. (1) formulation and implementation of optimal asset and ALM strategies in order to meet the risk/ reward objectives of the Company, (2) assess the level of risk that the Company intends to take and establish risk tolerance limits or triggers within which it will operate in relation to various investments, (3) The approach to monitoring risk exposures at periodic intervals and revising ALM strategies where required. The said Policy is formulated jointly by the Investment and Actuarial teams and reviewed by the Company's Asset Liability Committee (ALCO) and then formally adopted by the Risk Committee of the Board of Directors, and further approved by the Board.

viii) Code of Conduct & Whistle Blower Policy

HDFC Life is committed to the highest standards of personal, ethical and legal conduct for conducting its business. The Company has adopted a Code of Conduct, which is approved by the Board of Directors. A copy of the same is also available on the Company's website. HDFC Life encourages and promotes responsible and ethical business behavior by its employees in all transactions/engagements with all internal and external Stakeholders, including customers. HDFC Life encourages and supports employees/whistleblowers to report any suspected instances of unethical/improper behavior and provides a mechanism through its 'Whistle Blower Policy'. The said Policy provides the employees with a channel for communicating any suspected instances/complaints and a platform for their resolution through proper governance mechanism.

ix) Disclosure of material events, pursuant to SEBI Listed Companies Disclosure Obligations

Pursuant to Regulation 30(9) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Regulations'), a listed company is required to disclose all events or information with respect to its subsidiaries which are material for the listed entity. In view of the Company being

Report on Corporate Governance for the financial year ended March 31, 2017

a material subsidiary of listed company (i.e. HDFC Limited), the Company is required to comply with the said requirement. v) Cyber Security, and Cyber Security Council

Cyber Security remains a high priority on the agenda of Board and Board Risk Committee, due to the increase in potential threat landscape.

Report on Corporate Governance for the financial year ended March 31, 2017

HDFC Life's Information Security Group continues to align with the National Institute of Standards and Technology (NIST) and Federal Financial Institutions Examination Council (FFIEC) based Cybersecurity Framework for Risk Assessment which categorises the risk and provides visibility on the maturity level of the Organisation. This framework is a risk-based compilation of guidelines designed to help organisations assess current capabilities and draft prioritised roadmap toward improved Cybersecurity posture.

HDFC Life had identified and outlined a 3 year Cybersecurity implementation roadmap in FY 2016. Key initiatives implemented and rolled out since Company's Cybersecurity journey last year are as follows:

- Network DDoS - Enablement of ISP provided DDoS service for protection from large scale and multi-vector DDoS attacks which lead to service unavailability;
- Web Protection for Portals - Implementation of web application protection services to safeguard against attacks such as SQL injection, cross site scripting etc which may result in data leakage;
- Hybrid Internet Security Module - Offline Internet Access Control solution implemented for all laptop users ensuring consistent Internet security policy enforcement and thereby controlling infections over the network;
- Cyber Insurance - Insurance policy to cover incident losses or expenses such as forensic vendor fees, ransom demand, and fraudulent fund transfers;
- Virtual Patching for EOL Systems - Protection of EOL systems which cannot be patched;
- Next Generation Firewall - Provide protection against malware, zero day vulnerabilities, advanced application inspection capabilities and IPS blocking;
- Tie-up with Forensics Partner - Partnership with leading Forensics investigation agency for timely on-demand investigation & response;
- Security Event Configuration and Alerts - Critical system has been configured for real time alerts and monitoring of security incidents; and
- Risk Based Authentication - Multi factor risk based authentication tool implemented for remote access to HDFC Life Systems.

The Company's key Cybersecurity initiatives for the FY 2017 include Advance Persistent Threat protection and Network Access Control. HDFC Life continues to engage with renowned industry experts for comprehensive Cybersecurity Gap Assessment, Leadership engagement and awareness sessions.

In order to ensure that a uniform framework for information and Cybersecurity is implemented across the industry and a comprehensive governance mechanism is in place within the regulated entities, and with a view to develop a guideline to handle information and Cybersecurity related issues, IRDAI formed a working group of insurers. HDFC Life has actively participated as member of the working groups.

The Cyber Security Council which includes Legal, Compliance, Risk, Marketing and Business System & Technology functions as key stakeholders has been ensuring that the necessary guidance and recommendation is provided to the Information Security Group and implementation team.

Annual Report on Corporate Social Responsibility (CSR) Activities for the Financial Year 2017

1. In case the Company has failed to spend the two per cent of the average net profit of the last three financial years or any part thereof, the Company shall provide the reasons for not spending the amount in its Board report

Though the Company has been implementing CSR activities since 2010, the strategic integration and actual implementation, in line with Section 135 of the Act was required in 2014-15 when the Act came into force.

The Company invested in dedicated resources to put in robust CSR projects and a governance mechanism in place. While the Company could not spend the prescribed amount in the first two years, this year the Company has been able to spend the required amount effectively.

The Company envisages that all the projects that are chosen towards its CSR obligations would go a long way and bring good social returns on its investments. The Company believes in undertaking projects that can be scaled up during their lifespan. Hence, for long term sustainability and larger impact, HDFC Life has chosen projects whose implementation ranges from 3 to 5 years.

The selected projects have been carefully identified for intrinsic scalability and ease of replication over the long term.

Milestones for each and every project have been set up, and all the payments to the implementing agencies are made in tranches after effective completion of the set milestone. This also helps in effective monitoring on the progress of the projects and leads to a better coordination with the implementing agencies.

The inbuilt rigor of the due diligence process has also led to recalibration of the budget in a few instances.

2. A responsibility statement of the CSR Committee that the implementation and monitoring of CSR Policy is in compliance with the CSR objectives and Policy of the Company

The CSR Committee hereby declares that the implementation and monitoring of CSR Policy of the Company is in compliance with CSR objectives and Policy of the Company.

5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Independent Auditors' Report

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements are prepared in accordance with the requirements of the Insurance Act, 1938, the Insurance Regulatory and Development Authority Act, 1999, the Regulations and the Companies Act 2013, to the extent applicable and in the manner so required, and give a true and fair view in conformity with the accounting principles generally accepted in India, as applicable to Insurance Companies:
- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2017;
 - in the case of the Revenue Account, of the net surplus for the year ended on that date;
 - in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
 - in the case of the Receipts and Payments Account, of the receipts and payments for the year ended on that date.

Other Matters

9. The actuarial valuation of liabilities for life policies in-force and policies where premium is discontinued is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"), which has been certified by the Appointed Actuary in accordance with the regulations, as mentioned in paragraph 10 below. Accordingly, we have relied upon the Appointed Actuary's certificate for forming our opinion on the financial statements of the Company.
10. The financial statements of the Company for the year ended March 31, 2016 were audited by Price Waterhouse Chartered Accountants LLP and Haribhakti & Co. LLP Chartered Accountants who, vide their audit report dated April 18, 2016 have expressed as unmodified opinion thereon.

Report on Other Legal and Regulatory Requirements

11. The actuarial valuation of liabilities for life policies in-force and for policies where premium has been discontinued but liability exists as at March 31, 2017 has been duly certified by the Appointed Actuary.

The Appointed Actuary has also certified that in his opinion, the assumptions for such valuation are in accordance with the generally accepted actuarial principles and practices, requirements of the Insurance Act, regulations notified by the IRDAI and Actuarial Practice Standards issued by the Institute of Actuaries of India in concurrence with the IRDAI;

12. As required by the Regulations, we have issued a separate certificate dated May 3, 2017 certifying the matters specified in paragraphs 3 and 4 of Schedule C to the Regulations.
13. Further, to our comments in the Certificate referred to in Paragraph 11 above, as required under the Regulations, read with Section 143 (3) of the Act, we report that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and have found them to be satisfactory;
 - In our opinion and to the best of our information and according to the explanations given to us, proper books of account as required by law have been maintained by the Company so far as it appears from our examination of those books;
 - As the Company's financial accounting system is centralised at Head Office, no returns for the purposes of our audit are prepared at the branches and other offices of the Company;
 - The Balance Sheet, the Revenue Account, the Profit and Loss Account, and the Receipts and Payments Account dealt with by this Report are in agreement with the books of account;
 - In our opinion and to the best of our information and according to the explanations given to us, investments have been valued in accordance with the provisions of the Insurance Act, 1938 and the Regulations and orders / directions issued by the IRDAI in this behalf;
 - In our opinion and to the best of our information and according to the explanations given to us, the accounting policies selected by the

Independent Auditors' Report

Company are appropriate and are in compliance with the Accounting Standards referred to in Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, to the extent they are not inconsistent with the accounting principles prescribed in the Regulations and orders / directions issued by the IRDAI in this behalf;

- (g) In our opinion and to the best of our information and according to the explanations given to us, the Balance Sheet, the Revenue Account, the Profit and Loss Account and the Receipts and Payments Account dealt with by this report comply with the Accounting Standards referred to in Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent they are not inconsistent with the accounting principles prescribed in the Regulations and orders/ directions issued by IRDAI in this regard; and
- (h) On the basis of the written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (i) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure A.
- (j) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - i. The Company has disclosed the impact of pending litigations as at March 31, 2017 on its financial position in its financial statements - Refer schedule 16 (B) note 2 to the Financial Statements.
 - ii. The Company has made provision, as required under the applicable laws or accounting standards, for material foreseeable losses, wherever applicable on long-term contracts including derivative contracts as at March 31, 2017 - Refer schedule 16 (C) note 20 to the Financial Statements.
 - iii. There are no amounts which are required to be transferred, to the Investor Education and Protection Fund by the Company for the year ended March 31, 2017.

Annexure A to Independent Auditors' Report

Referred to in paragraph 13 (i) of the Independent Auditors' Report of even date to the members of HDFC Standard Life Insurance Company Limited on the financial statements for the year ended March 31, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of HDFC Standard Life Insurance Company Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, deemed to be prescribed under section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable

assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Annexure A to Independent Auditors' Report

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based

on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the regulations, and has been relied upon by us, as mentioned in para 9 and 11 of our audit report on the financial statements for the year ended March 31, 2017. Accordingly, our opinion on the internal financial controls over financial reporting does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

Corporate Information

HDFC Standard Life Insurance Company Limited ('HDFC Life' or 'The Company'), is formed as a joint venture between Housing Development Finance Corporation Limited ('HDFC Limited'), India's leading housing finance institution and Standard Life plc, the leading provider of financial services in the United Kingdom. The Company obtained a Certificate of Registration from the Insurance Regulatory and Development Authority of India ('IRDAI') on October 23, 2000 for carrying on the business of life insurance. The Company's Certificate of Renewal of Registration dated January 31, 2014 was valid till March 31, 2015. Pursuant to Section 3 read with Section 3A as amended by Insurance Laws (Amendment) Act, 2015, the process of annual renewal of the Certificate of Registration issued to insurers under Section 3 of the Insurance Act, 1938, was deleted. Consequently, the said certificate continues to be in force. The Company offers a range of individual and group insurance solutions. The portfolio comprises of various insurance and investment products such as Protection, Pension, Savings, Investment and Health.

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of preparation

The financial statements are prepared under the historical cost convention, on an accrual basis of accounting in accordance with the accounting principles and in the manner prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ('the Financial Statements Regulations'), the Master Circular on Preparation of Financial Statements and Filing of Returns of Life Insurance Business Ref No. IRDA/F&A/Cir/232/12/2013 dated December 11, 2013 ('the Master Circular') and other circulars issued by the IRDAI from time to time, provisions of the Insurance Act, 1938, as amended from time to time, including amendment brought by Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority Act, 1999, as amended from time to time, the Companies Act, 1956, as amended from time to time, to the extent applicable and the Companies Act, 2013. Pursuant to Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, till the accounting

standards or any addendum thereto are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing accounting standards notified under Companies Act, 1956, shall continue to apply. Consequently, these financial statements have been prepared also to comply in all material aspects with the accounting standards notified under Section 211 (3C), of the Companies Act, 1956 i.e. Companies (Accounting Standards) Rules, 2006, as amended to the extent applicable. Accounting policies have been consistently applied to the extent applicable and in the manner so required.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities and disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as of the date of the financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is accounted for prospectively.

2. Revenue recognition

i) Premium income

Premium income including rider premium is accounted for when due from the policyholders and as reduced for lapsation expected based on the experience of the Company. In case of linked business, premium income is accounted for when the associated units are created. Premium on lapsed policies is accounted for as income when such policies are reinstated. Top up premium is considered as single premium.

ii) Income from linked policies

Income from linked policies, which includes fund management charges, policy administration charges, mortality charges and other charges, wherever applicable, is recovered from the linked funds in accordance with the terms and conditions of the insurance contracts and is accounted for as income when due.

Schedules

iii) Income from investments

Interest income on investments is accounted for on an accrual basis.

Amortisation of premium or accretion of discount computed at the time of purchase of debt securities is recognised over the remaining period of maturity/holding on a straight line basis.

Dividend income is accounted for on "ex-dividend" date in case of listed equity and preference shares and in case of unlisted equity and preference shares, when the right to receive dividend is established.

In case of linked business, profit or loss on sale/redemption of equity shares/Equity Exchange Traded Funds (ETFs), preference shares and units of mutual fund is calculated as the difference between net sale proceeds/redemption proceeds and the weighted average book value.

In case of other than linked business, profit or loss on sale/redemption of equity shares/equity ETFs, preference shares, Additional Tier I Bonds and units of mutual fund includes the accumulated changes in the fair value previously recognised under "Fair Value Change Account" in the Balance Sheet.

In case of linked business, profit or loss on sale/redemption of debt securities is calculated as the difference between net sale proceeds/redemption proceeds and the weighted average book cost. In case of other than linked business, profit or loss on sale/redemption of debt securities is calculated as the difference between net sales proceeds/redemption proceeds and the weighted average amortised cost.

iv) Income from loans

Interest income on loans is accounted for on an accrual basis.

3. Reinsurance premium ceded

Reinsurance premium ceded is accounted for on due basis in accordance with the terms and conditions of the reinsurance treaties. Profit commission on reinsurance ceded is netted off against premium ceded on reinsurance.

4. Acquisition costs

Acquisition costs are the costs that vary with and are primarily related to the acquisition of new and renewal insurance contracts and consist of costs like

commission to insurance intermediaries, sales staff costs, office rent, medical examination costs, policy printing expenses, stamp duty and other related expenses. These costs are expensed in the period in which they are incurred.

5. Benefits paid

Benefits paid consist of policy benefit amounts and claim settlement costs, where applicable.

Non-linked business

Death and rider claims are accounted for on receipt of intimation. Annuity benefits, money back payments and maturity claims are accounted for when due. Surrenders are accounted for on the receipt of consent from the insured to the quote provided by the Company.

Linked business

Death and rider claims are accounted for on receipt of intimation. Maturity claims are accounted for on due basis when the associated units are de-allocated. Surrenders and withdrawals are accounted for on receipt of intimation when associated units are de-allocated. Amount payable on lapsed/discontinued policies are accounted for on expiry of lock in period of these policies. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable.

Reinsurance claims receivable are accounted for in the period in which the concerned claims are intimated. Repudiated claims and other claims disputed before judicial authorities are provided for on prudent basis as considered appropriate by management.

6. Investments

Investments are made in accordance with the provisions of the Insurance Act, 1938, as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority (Investment) Regulations, 2000, the Insurance Regulatory and Development Authority (Investment) (Amendment) Regulations, 2001, the Insurance Regulatory and Development Authority (Investment) (Fourth Amendment) Regulations, 2008, the Insurance Regulatory and Development Authority (Investment) (Fifth Amendment) Regulations, 2013,

Schedules

the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, wherever applicable and various other circulars/notifications/clarifications issued by the IRDAI in this context from time to time.

Investments are recognised at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued (i.e. since the previous coupon date) as on the date of purchase.

A) Classification of investments

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them within twelve months from the Balance Sheet date are classified as “short term” investments. Investments other than short term investments are classified as “long term” investments.

B) Valuation of investments

I. Real estate - investment property

Land or building or part of a building or both held to earn rental income or capital appreciation or for both, if any, rather than for use in services or for administrative purposes is classified as real estate investment property and is valued at historical cost, subject to revaluation, if any. Revaluation of the real estate investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in Revaluation Reserve in the Balance Sheet. Impairment loss, if any, exceeding the amount in Revaluation Reserve is recognised as an expense in the Revenue Account or the Profit and Loss Account.

II. Debt securities

a) Non-linked business, non-unit reserve investments and shareholders' investments

Debt securities, including Government Securities are considered as “held to maturity” and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount, if any, over the period of maturity/holding, on a straight line basis.

Money market instruments like Commercial Papers, Certificate of Deposit, Treasury Bills (T-Bills) and Collateralised Borrowing and Lending Obligation (CBLO) are valued at historical cost, subject to amortisation

of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds and Security Receipts are valued at cost, subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment. Fixed Deposits and Reverse Repo are valued at cost.

b) Linked business

Debt securities, including Government Securities are valued at market value, using Credit Rating Information Services of India Limited (‘CRISIL’) Bond Valuer/CRISIL Gilt Prices, as applicable.

Money market instruments like Commercial Papers, Certificate of Deposits, Treasury Bills (T-Bills) and CBLO are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds and Security Receipts are valued at the latest available net asset values of the respective underlying funds. Fixed Deposits and investment in Reverse Repo are valued at cost.

Unrealised gains or losses arising on valuation of debt securities including Government Securities are accounted for in the Revenue Account.

Securities with call options are valued at the lower of the values as obtained by valuing the security to the final maturity date or to the call option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security to the various call dates or to the final maturity date. Securities with put options are valued at the higher of the value as obtained by valuing the security to the final maturity date or to the put option date by using the benchmark rate based on the matrix released by CRISIL on daily basis. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security to the various put option dates or to the final maturity date.

Securities with both put and call options on the same day are deemed to mature on the put and call option day and would be valued on a yield to maturity basis, by using the benchmark rate based on the matrix released by CRISIL on daily basis.

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

Unlisted preference shares (other than redeemable preference shares) and listed preference shares (other than redeemable preference shares) that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI are valued at historical cost, subject to provision for diminution in the value, if any, of such investments determined separately for each individual investment.

b) Linked business

Listed preference shares are valued and stated at fair value, being the last quoted closing price on the Primary Exchange i.e. the NSE at the Balance Sheet date. In case, the preference shares are not traded on

the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising on such valuations are accounted for in the Revenue Account.

Listed preference shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution in the value, if any, of such investment determined separately for each individual investment.

V. Mutual funds

a) Non-linked business, non-unit reserve investments and shareholders' investments

Mutual fund units held at the Balance Sheet date are valued at previous business day's Net Asset Value (NAV) per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

b) Linked business

Mutual fund units held at the Balance Sheet date are valued at previous business day's NAV per unit. Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

VI. Interest Rate Derivatives

Interest Rate Derivatives (IRDs) contracted to hedge highly probable forecasted transactions on insurance contracts in life, pension and annuity business are recognised at fair value, on the date on which the interest rate derivative contracts are entered into and are re-measured at the fair value on the Balance Sheet date.

Schedules

Interest rate derivative contracts for hedging of highly probable forecasted transactions on insurance contracts, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2017.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. 'Hedge Reserve' under the head 'Credit/(Debit) Fair Value Change Account'. Such accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Revenue Account, in the same period during which the asset acquired or liability assumed affects the Revenue Account. In the event that all or any portion of loss, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account. Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

C) Impairment of investments

The Company periodically assesses at each Balance Sheet date, whether there is any indication of impairment of investments or reversal of impairment loss earlier recognised. An impairment loss is accounted for as an expense and disclosed under the head 'Provision for diminution in the value of investment (net)' in the Revenue Account or the Profit and Loss Account to the extent of the difference between the remeasured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Revenue Account or the Profit and Loss Account.

Any reversal of impairment loss, earlier recognised for in the Revenue Account or the Profit and Loss Account, is accounted in the Revenue Account or the Profit and Loss Account respectively.

D) Provision for Non Performing Assets (NPA)

All assets where the interest and/or instalment of principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in the manner required by the IRDAI regulations on this behalf.

E) Transfer of investments from Shareholders' fund to Policyholders' fund

Transfers of investments, other than debt securities, as and when made from the Shareholders' fund to the Policyholders' fund to meet the deficit in the Policyholders' account are made at the cost price or market price, whichever is lower.

Transfers of debt securities, from the Shareholders' fund to the Policyholders' fund are made at the net amortised cost or the market value, whichever is lower.

F) Transfer of investments between non-linked Policyholders' funds

No transfers of investments are made between non-linked Policyholders' funds.

G) Purchase and sale transactions between unit linked funds

The purchase and sale of investments between unit linked funds is accounted for at the prevailing market price on the date of purchase or sale of investments.

In case of debt securities, if prevailing market price of any security is not available on the date of transfer of investment, then the last available price is considered.

7. Policy liabilities

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938 as amended from time to time including amendment brought by the Insurance Laws (Amendment) Act, 2015, regulations notified by the

Schedules

IRDAI and Actuarial Practice Standard (APS) issued by the Institute of Actuaries of India with the concurrence of the IRDAI.

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDAI (Assets, Liabilities and Solvency Margin) Regulations, 2016 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual and group) comprise unit reserves and non-unit reserves. The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium method.
3. The liabilities for individual non-linked non-participating and participating business are calculated using gross premium method and are subject to the minimum floor of surrender value. Additionally, individual non-linked participating policies also have a reference to the asset share of policies at valuation date.
4. The liabilities for one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, the liabilities are calculated using gross premium valuation method.
5. The liabilities for the group non-linked savings products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.
6. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
7. Additional reserves are determined to:
 - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported)
 - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business)
 - c. meet the expected liabilities that would arise on the revival of lapsed policies, on the basis of the proportion of the policies expected to be revived based on the revival experience of the Company (Revival Reserve)
 - d. allow for the additional amount required to be paid on account of cancellation of policies due to look in, on the basis of the proportion of the policies expected to exercise the look-in option based on the experience of the Company (Look-in Reserve)
 - e. allow for the cost of guarantees, wherever applicable

8. Unclaimed amount of policyholders

Assets held for unclaimed amount of policyholders is created and maintained in accordance with the requirement of IRDAI circular No. IRDA/F&A/CIR/GLD/195/08/124 dated August 14, 2014, IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015, IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015 and Investment Regulations, 2016 as amended from time to time:

- a) Unclaimed amount of policyholders is invested in money market instruments and / or fixed deposits of scheduled banks which is valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.
- b) Income on unclaimed amount of policyholders is credited to respective unclaimed account and is accounted for on an accrual basis.
- c) Amount payable on account of income earned on assets held for unclaimed amount of policyholders is accounted for on an accrual basis and is disclosed net of fund management charges.

Schedules

d) Unclaimed amount of policyholders' liability is determined on the basis of NAV of the units outstanding as at the valuation date.

9. Fixed assets and depreciation/amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, being low value assets are fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress. Advances given towards acquisition of fixed assets are disclosed in 'Advance and other assets' in Balance Sheet.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of asset sold, up to the previous month of sale. In respect of expenditure incurred on acquisition of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is recognised in the Revenue Account.

Tangible assets

The Company has adopted straight line method of depreciation so as to depreciate the cost of following type of assets over the useful life of these respective assets which are as follows:

Asset class	Useful life of assets (years)
Building	60
Information technology equipment-End user devices [^]	3
Information technology equipment-Servers and network* [^]	4
Furniture & Fixtures* [^]	5
Motor Vehicles* [^]	4
Office Equipment [^]	5

* For these class of assets, based on internal and/or external assessment/ technical evaluation carried out by the management, the management believes that the useful lives as mentioned above best represent the useful life of these respective assets, however these are lower than as prescribed under Part C of Schedule II of the Companies Act, 2013.

[^] For these class of assets, based on internal assessment carried out by the management, the residual value is considered to be nil.

Leasehold improvements are depreciated over the lock in period of the leased premises subject to a maximum of five years.

Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment, if any. These are amortised over the useful life of the software subject to a maximum of four years. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Any expenditure for support and maintenance of the computer software is charged to the Revenue Account.

10. Impairment of assets

The Company periodically assesses, using internal and external sources, whether there is any indication of impairment of asset. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer necessary or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets.

Schedules

11. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for accumulated impairment losses and provision for NPA, if any.

12. Foreign currency transactions

In accordance with the requirements of Accounting Standard (AS) 11, "The Effects of Changes in Foreign Exchange Rates", transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction, at the time of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions are recognised in the period in which they arise either in the Revenue Account or the Profit and Loss Account, as the case may be.

13. Segmental reporting

Identification of segments

As per Accounting Standard (AS) 17 on "Segment Reporting", read with the Financial Statements Regulations, the Company has prepared the Revenue Account and the Balance Sheet for the primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating - Annuity, Non Participating - Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life, Unit Linked - Group Pension. Since the business operations of the Company are given effect to in India and all the policies are written in India only, this is considered as one geographical segment.

Allocation methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

- a) Revenue, expenses, assets and liabilities, which are directly attributable and identifiable to the respective business segments, are directly allocated for in that respective segment; and
- b) Revenue, expenses, assets and liabilities which are not directly identifiable to a business segment though attributable and other indirect expenses which are not attributable to a business segment, are allocated based on one or combination of some of the following parameters, as considered appropriate by the management:
 - i) effective premium income
 - ii) number of policies
 - iii) number of employees
 - iv) man hours utilised
 - v) premium income
 - vi) commission
 - vii) sum assured
 - viii) mean fund size
 - ix) operating expenses
 - x) benefits paid

The accounting policies used in segmental reporting are the same as those used in the preparation of the financial statements.

14. Employee benefits

A) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance Scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme are accounted for in the period in which the employee renders the related service. All short term employee benefits are accounted for on an undiscounted basis.

Schedules

B) Post-employment benefits

The Company has both defined contribution and defined benefit plans.

(i) Defined contribution plans:

The Superannuation Scheme, Employee Provident Fund Scheme (Company contribution) and the National Pension Scheme (Company contribution) are the defined contribution plans. The contributions paid/payable under the plan are made when due and charged to the Revenue Account on an undiscounted basis during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

(ii) Defined benefit plans:

The Gratuity plan of the Company is the defined benefit plan, which is a funded plan. The gratuity benefit payable to the employees of the Company is as per the provisions of "The Payment of Gratuity Act, 1972". The present value of the obligations under such defined benefit plan is determined on the basis of actuarial valuation using the projected unit credit method, which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The discount rate used for actuarial valuation is based on the yield of Government Securities. The Company fully contributes the net ascertained liabilities under the plan to the HDFC Life Insurance Company Limited Employees Group Gratuity Plan. The Company recognises the net defined benefit obligation of the gratuity plan, taking into consideration the defined benefit obligation using actuarial valuation and the fair value of plan assets at the Balance Sheet date, in accordance with Accounting Standard (AS) 15 (Revised), 'Employee Benefits'. Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Revenue Account, in the period in which they arise.

C) Other long term employee benefits

Other long term employee benefits include accumulated long term compensated absences and long term incentive plans.

Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment, at the option of the employee subject to Company's policies and are accounted for based on actuarial valuation determined using the projected unit credit method.

Long term incentive plans are subject to fulfilment of criteria prescribed by the Company and are accounted for at the present value of expected future benefits payable using an appropriate discount rate.

Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Revenue Account, as the case may be, in the period in which they arise.

15. Employee Stock Option Scheme(ESOS)

The Company has formulated Employee Stock Option Scheme 2005 (ESOS 2005), Employee Stock Option Scheme 2010 (ESOS 2010), Employee Stock Option Scheme 2011 (ESOS 2011) and Employee Stock Option Scheme 2012 (ESOS 2012), which are administered through the HDFC Standard Life Employees Stock Option Trust ("the Trust") and Employee Stock Option Scheme 2014 (ESOS 2014) and Employees Stock Option Scheme (ESOS 2015) which are directly administered by the Company. During the year, the Company has formulated Employee Stock Option Scheme 2016 (ESOS 2016) which is also directly administered by the Company. The schemes provide that eligible employees are granted options that vest in a graded manner to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis in accordance with the Guidance Note on Accounting for Employee Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is the amount by which the value of the underlying share determined by an independent valuer exceeds the exercise price of an option. The intrinsic value of options, if any, at the grant date is amortised over the vesting period.

16. Provisions, contingent liabilities and contingent assets

Provisions are accounted for in respect of present obligations arising out of past events where it is probable that an outflow of resources will be

Schedules

required to settle the obligation and the amounts of which can be reliably estimated. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability. Contingent liabilities are disclosed in respect of;

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) present obligations that arise from past events, which are not recognised because of remote probability that an outflow of resources embodying economic benefits will be required to settle the obligations or a reliable estimate of the amounts of the obligations cannot be made.

Contingent assets are neither accounted for nor disclosed.

17. Leases

A) Finance leases

Leases under which the lessee assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

B) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the lease term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

18. Taxation:

A) Direct tax

- I) Provision for income tax
Provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions

of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

II) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", with respect to the carry forward of losses under the Income Tax regulations, the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

B) Indirect tax

The Company claims credit of service tax on input services, which is set off against service tax on output services. As a matter of prudence, unutilised credits towards service tax on input services are carried forward under 'Schedule 12 - Advances and Other Assets' in the Balance Sheet, wherever there is reasonable certainty of utilisation.

19. Funds for Future Appropriations

The Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from the fund reflect the excess or deficit of income over expenses respectively and appropriations in each accounting period arising in the Company's Policyholders' Fund. Any allocation to the par policyholders would also give rise to a transfer to Shareholders' Profit and Loss Account in the required proportion.

The FFA in the linked segment represents surplus on the lapsed policies issued prior to September 2010 unlikely to be revived. This surplus is required to be held within the Policyholders' fund till the time policyholders are eligible for revival of their policies.

20. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of

Schedules

calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are treated as dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

21. Cash and cash equivalents

Cash and cash equivalents for the purposes of Receipts and Payments Account comprise of

cash and cheques in hand, bank balances, fixed deposits with original maturity of three months or less, CBLO, Reverse Repo, highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value. Receipts and Payments Account is prepared and reported using the Direct Method in accordance with Accounting Standard (AS) 3, "Cash Flow Statements" as per requirements of Para 2.2 of the Master Circular.

B. NOTES FORMING PART OF ACCOUNTS

1. Contingent liabilities

(₹ '000)

Sr. No.	Particulars	As at March 31, 2017	As at March 31, 2016
a)	Partly paid-up investments	5,650,000	-
b)	Claims, other than against policies, not acknowledged as debts by the Company	7,766	7,709
c)	Underwriting commitments outstanding	-	-
d)	Guarantees given by or on behalf of the Company	917	937
e)	Statutory demands and liabilities in dispute, not provided for	997,270	992,812
f)	Reinsurance obligations	-	-
g)	Others	-	-
	Total	6,655,953	1,001,458

Statutory demands and liabilities in dispute, not provided for, relate to the show cause cum demand notices/assessment orders received by the Company from the respective tax authorities. The Company has filed appeals against the show cause cum demand notices/assessment orders with the appellate authorities and has been advised by the experts that the grounds of appeal are well supported in law in view of which the Company does not expect any liability to arise in this regard.

2. Pending litigations

The Company's pending litigations comprise of claims against the Company primarily on account of proceedings pending with Tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the

contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a material adverse on its financial results as at March 31, 2017. Further, refer Note 1 of Schedule 16 (B) for details on contingent liability.

3. Actuarial assumptions

The policyholders' actuarial liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to interest, expenses, mortality, morbidity, persistency and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used in actuarial valuation is as below:

Schedules

a) Interest rate assumptions:

The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product and are in the range of 5.20% to 7.35% (Previous year 5.20% to 7.00%).

b) Mortality assumptions:

Mortality assumptions are set in accordance with Clause 5(2) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016, in reference to the published Indian Assured Lives Mortality table (2006-08) and are based on the latest experience analysis of the business.

In the case of annuity benefits, mortality assumption is based on the LIC Annuitants (1996-1998) table.

c) Expense assumptions:

The expense assumptions are set on the basis of the expense analysis. These are fixed renewal expenses and investment expenses charged as a % of fund. The renewal and claim expenses are increased at an inflation rate of 7.5% p.a.

d) Persistency assumptions:

The persistency assumptions are also based on the most recent experience of the Company and vary according to the premium frequency and type of the product.

e) Provision for free-look period:

If a policy which is in force as at the valuation date is subsequently cancelled in the free-look period, then there could be a strain in the policyholder fund on account of the amount payable on free-look cancellation, to the extent the amount is higher than reserves held for that policy. In order to avoid the future valuation strain as a result of the free-look cancellations, reserves on account of the above are held. The free-look reserve is calculated as total strain for all policies that are eligible for free-look cancellations at the valuation date, multiplied by a factor, representing the expected assumptions for free-look cancellations.

f) Bonus rates:

The bonus rates for the participating business as required to be declared in the future is based on the interest expected to be earned as per the valuation assumptions.

g) Tax:

The tax rate as applicable to insurance companies carrying on insurance business is 14.42 % p.a. for the year (Previous year 14.42% p.a.).

5. Employee Stock Option Scheme (ESOS)

The Company has granted options to employees under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 schemes. These schemes are administered by the HDFC Standard Life Employees Stock Option Trust. The Trust had subscribed to the capital of the Company and also acquired shares of the Company from Housing Development Finance Corporation Limited, the holding company. The options are granted to the employees from these tranches of shares. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company has also granted options to its employees under the ESOS 2014 scheme, ESOS 2015 scheme and ESOS 2016 scheme. The said schemes are directly administered by the Company. The exercise price of ESOS 2014, ESOS 2015 and of ESOS 2016 schemes is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company follows the intrinsic value method of accounting for stock options granted to employees. The intrinsic value of the options issued under the above referred schemes is 'Nil' as the exercise price of the option is the same as fair value of the underlying share on the grant date and accordingly, no expenses are recognised in the books. Had the

Schedules

Company followed the fair value method for valuing its options, the charge to the Revenue Account/ Profit & Loss Account for the year would have been aggregated to ₹ 224,706 thousands (Previous year ₹ 266,023 thousands) and the profit after tax would have been lower by ₹ 122,056 thousands (Previous year ₹ 155,579 thousands). Consequently, Company's basic and diluted earnings per share would have been ₹ 4.41 and ₹ 4.38 respectively (Previous year: ₹ 4.02 and ₹ 4.00 respectively)

Salient features of all the existing grants under the seven schemes are as stated below:

A) ESOS 2005

There are seven grants upto March 31, 2017 which are those issued on September 1, 2005 (two grants), November 8, 2006, August 3, 2007, July 15, 2008, August 16, 2009 and December 3, 2009. For all the grants the mode of settlement is through equity shares. The vested options are required to be exercised by the employees within three years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee. Total number of options granted upto March 31, 2017 are 9,964,650 (Previous year 9,964,650).

The exercise price of ESOS 2005 is determined based on the holding cost of the shares in the books of the Trust. This exercise price is then applicable to all options vested and available for exercise by employees for a particular quarter. Since options outstanding at the end of the year are Nil (Previous year Nil), the weighted average exercise price for options outstanding at the end of the year is not applicable and hence not disclosed. Weighted average exercise price is available only for options already exercised and this price for the current year for all grants combined is ₹ Nil per share (Previous year ₹ 26.50 per share).

The exercise price of stock options outstanding at the end of the period would depend upon the quarterly exercise price. The exercise price for the year ended March 31, 2017 is ₹ Nil per share (Previous year ₹ 26.50 per share). The weighted average remaining contractual life (comprising the vesting period and the exercise period) of options outstanding as at March 31, 2017 is Nil years (Previous year Nil years).

A summary of status of ESOS 2005 in terms of options granted, forfeited, exercised, outstanding and exercisable is as given below:

Particulars	For the year ended March 31, 2017	For the year ended March 31, 2016
Outstanding at the beginning of the year	-	11,370

B) ESOS 2010

There are two grants issued upto March 31, 2017 which are those issued on June 30, 2010 and October 1, 2010. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of listing of the Company on a recognised stock exchange, whichever is later, subject to the norms prescribed by the Nomination & Remuneration Committee. Hence,

it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2017 are 5,158,000 (Previous year 5,158,000).

A summary of status of ESOS 2010 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

C) ESOS 2011

There is one grant upto March 31, 2017 which was issued on October 1, 2011. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of listing of the Company on a recognised stock exchange, whichever is later, subject to the norms prescribed by the Nomination & Remuneration Committee. Hence, it is not possible to provide the

weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2017 are 4,753,000 (Previous year 4,753,000).

A summary of status of ESOS 2011 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

D) ESOS 2012

There are two grants issued upto March 31, 2017 which were on October 1, 2012 and October 1, 2013. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of listing of the Company on a recognised stock exchange, whichever is later, subject to the norms prescribed by the Nomination & Remuneration Committee.

Hence, it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2017 are 14,275,310 (Previous year 14,275,310).

A summary of status of ESOS 2012 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

Method of computation of fair value of options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions used in Black-Scholes model for calculating fair value of options as on the date of grant are as follows:

ESOS Scheme	Risk Free Interest Rate	Expected Life	Expected Volatility*	Expected Dividend Yield
ESOS 2005	6.15% - 9.37%	1.55 - 5.50 years	42.63% - 65.48%	0.00%
ESOS 2010	7.19% - 7.72%	3.50 - 6.50 years	48.80% - 51.88%	0.00%
ESOS 2011	8.28% - 8.30%	3.50 - 5.50 years	46.75% - 48.12%	0.00%
ESOS 2012	8.19% - 8.74%	1.37 - 3.45 years	30.44% - 36.53%	0.00%
ESOS 2014	7.73% - 8.28%	1.75 - 3.75 years	33.23% - 37.15%	1.06%
ESOS 2015	7.41% - 7.58%	1.75 - 3.75 years	34.21% - 38.38%	1.04%
ESOS 2016	6.57% - 6.80%	1.75 - 3.75 years	10.00%	0.88%

Schedules

*Volatility of a matured enterprise in the industry which is listed on BSE has been used as a basis for estimation of expected volatility of options. In the case of ESOS 2016, the expected volatility has been assumed at the rate of 10% since the Company is unlisted.

6. Managerial remuneration

The appointment and remuneration of managerial personnel is in accordance with the requirements of Section 34A of the Insurance Act, 1938 as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015 and has been approved by the IRDAI.

14. Derivative contracts:

In accordance with the IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') allowing insurers to deal in rupee interest rate derivatives, the Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

- a) The Company has during the year, as part of its Hedging strategy, entered into exchange traded Interest Rate Future (IRF) transactions to hedge

the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Exchange Traded Interest rate futures are standardised interest rate derivative contracts traded on a recognised stock exchange to buy or sell a notional debt security or Government Bond (GOI) or Treasury Bill (T-Bill) of at a specified future date, at a price determined at the time of the contract with an objective to lock in the price of an interest bearing security at a future date.

The fair value for IRF instrument is considered as the daily settlement price on NSE. If the settlement price is not available on NSE, then the daily settlement price on BSE is considered for valuation of IRFs.

Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes:

a) Fixed Income Derivative Hedging instruments:

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company uses derivative instrument (IRF) to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, goals and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

b) Derivative policy/process and Hedge effectiveness assessment:

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment.

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The overall policy, risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

c) Scope and nature of risk identification, risk measurement, and risk monitoring:

The Risk Management Policy and Derivative Policy as approved by the Board sets appropriate market limits

such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives.

As the IRFs are traded and settled by the recognised stock exchanges i.e. National Stock Exchange or Bombay Stock Exchange, the risk of counterparty failure would not exist, however the following risks pertaining to hedging using IRFs still exist:

i) Roll over risk

Futures contracts traded in the markets usually expire in 1-3 months. Since the period for which the hedge is established is longer, it necessitates frequent roll-overs from contracts approaching expiry into new contracts. Roll over risk is the cost involved in rolling over futures contracts. The financial impact of this risk can be reduced by actively managing the roll-over from existing contracts into new contracts.

ii) Basis Risk

Basis risk is the risk arising out of a mismatch in the tenure of the risk to be hedged and the tenure of available interest rate future contracts. The financial impact of this risk can be reduced to some extent by purchasing futures contracts so as to match the tenure of the risk to be hedged.

All financial risks of the derivative portfolio are measured and monitored on periodic basis.

Quantitative disclosure on risk exposure in Exchange Traded Interest Rate Futures

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (IRF). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account.

The tenure of the hedging instrument may be less than or equal to the tenure of underlying hedged asset/liability.

 2. Flat cut of 1 bps in the current term structure of interest rates.
4. The notional principal amount of derivatives reflect the volume of transactions outstanding as at the Balance Sheet date and do not represent the amounts at risk.
5. The Company evaluates the industry exposure limit for exchange traded IRFs against the Central Counter Party i.e. Clearing Corporation in line with the IRDAI circular on Interest Rate Derivatives.

The industry exposure limit has been calculated on the basis of Credit Equivalent Amount using the Current Exposure Method (CEM) as detailed below:

The Credit Equivalent Amount of a market related off-balance sheet transaction calculated using the CEM is the sum of

- a) the current credit exposure (gross positive mark to market value of the contract); and
- b) potential future credit exposure which is a product of the notional principal amount across the outstanding contract and a factor that is based on the mandated credit conversion factors as prescribed under the IRDAI circular on Interest Rate Derivatives, which is applied on the residual maturity of the contract.

28. Subsidiaries:

The Company has two subsidiaries, for which information is given as under:

- i. HDFC Pension Management Company Limited ('HDFC Pension') is a wholly owned subsidiary of the Company. HDFC Pension is a public limited company domiciled in India and incorporated under the provision of the erstwhile Companies Act, 1956 on June 20, 2011 with the purpose of managing pension fund business. The Company has received a 'Letter of Appointment' to act as a Sponsor of HDFC Pension from the Pension Fund Regulatory Development Authority (PFRDA) by virtue of order of Hon'ble High Court of Delhi dated December 18, 2014 for the purpose of managing pension asset under National Pension System for private sector. HDFC Pension presently continues to carry on its business in the normal course. However, the PFRDA has filed Special Leave Petition in the Hon'ble Supreme Court of India, challenging the said order of the Hon'ble High Court of Delhi. The Hon'ble Supreme Court of India has refused to grant the PFRDA any ad-interim relief and the matter is presently pending hearing. Further, the PFRDA (Pension Fund) Regulations, 2015 were notified in May 2015, pursuant to which re-registration of all pension funds was sought by the PFRDA. HDFC Pension has submitted its application for the same and a response from the PFRDA is awaited. However, vide a letter dated June 24, 2016, the PFRDA, while acknowledging our submission of Annual Fees, had granted an extension to continue as a Pension Fund until the selection of pension funds in terms of process specified under PFRDA (Pension Fund) Regulations, 2015. This extension was subject to the Order of the Supreme Court of India on the appeal filed against the Order of the High Court of Delhi. During the year, the PFRDA had issued a fresh Request For Proposal ('RFP') for selection of Pension Funds for private sector, pursuant to which Sponsor had submitted a Technical and Commercial bid. On November 29, 2016 the

PFRDA issued a notice that the Commercial Bid would be opened on November 30, 2016 wherein the name of the Company was included which implies that the Technical Bid of the Company has been accepted. HDFC Pension is also given to understand that the Commercial Bid submitted by the Company has also been accepted by the PFRDA and formal issuance of letters of appointment is awaited.

- ii. 'HDFC International Life and Re Company Limited' is a wholly owned foreign subsidiary incorporated in Dubai on January 10, 2016 under the DIFC (Dubai International Finance Centre) Companies Law No. 2 of 2009 under registration number 2067. 17. On August 8, 2016, the Board of Directors of HDFC Standard Life Insurance Company Limited ("HDFC Life"), Max Life Insurance Company Limited ("Max Life"), Max Financial Services Limited ("Max Financial") and Max India Limited ("Max India") at their respective board meetings, approved entering into definitive agreements for the amalgamation of the businesses between the above entities through a composite Scheme of Arrangement ("Scheme"). As part of the Scheme, Max Life would be merged with Max Financial, and subsequently the life insurance business of Max Financial will be demerged and amalgamated with HDFC Life and the residual Max Financial will be merged into Max India Limited. The shares of HDFC Life are proposed to be listed on Stock Exchange(s) in India, as a consequence of the Scheme. HDFC Ltd. and Standard Life will continue to be the promoters of the merged entity.

HDFC Life and Max Life have filed an application seeking in-principle approval of the Insurance Regulatory and Development Authority of India ("IRDAI") for the Scheme on September 21, 2016 and have also filed requisite applications with Competition Commission of India (CCI). Max Financial and Max India have made filings with the relevant stock exchanges / Securities and Exchange Board of India (SEBI).

The IRDAI, vide its letter dated November 11, 2016 had expressed certain reservations on the proposed Scheme. The Company believes that the Scheme is in compliance with all the applicable laws and has accordingly furnished necessary representations to the IRDAI clarifying on the matter. The Company is currently awaiting further directions / approval from the IRDAI.

The closing of the proposed transaction will be subject to aforesaid approval of the IRDAI, as well as other applicable approvals including the CCI, the SEBI, relevant stock exchanges and the National

Company Law Tribunal (NCLT), pending which the effects of the above Scheme are not required to be considered in these financial statements.

18. In accordance with the IRDAI (Investment) Regulations 2016 and IRDAI circular IRDA/F&I/INV/CIR/062/03/2013 dated March 26, 2013, the Company has declared March 31, 2017 as a business day. NAV for all unit linked funds were declared on March 31, 2017. All applications received till 3 PM on March 31, 2017, were processed with NAV of March 31, 2017. Applications received after this cut-off for unit linked funds are taken into the next financial year.

19. Details of Specified Bank Notes (SBN) held and transacted during the period from November 8, 2016 to December 30, 2016, as per notification issued by Ministry of Corporate Affairs (MCA) dated March 30, 2017, is not disclosed as this disclosure is required only for companies to which Schedule III of the Companies Act, 2013 is applicable.

20. Long term contracts

The Company has a process whereby periodically all long term contracts are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that adequate provisions as required under any law/accounting standard for material foreseeable losses on such long term contracts including derivative contracts has been made in the financial statements.

For insurance contracts, actuarial valuation of liabilities for policies in force is done by the Appointed Actuary of the Company. The assumptions used in valuation of liabilities for policies in force are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the IRDAI.

Management Report

for the year ended March 31, 2017

In accordance with the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, and circulars/guidelines issued by IRDAI thereafter, the following report is submitted by the Management for and on behalf of the Board of Directors (BOD) of the Company:

1. Certificate of Registration

The Company obtained a Certificate of Registration from The Insurance Regulatory and Development Authority of India ('IRDAI') on October 23, 2000 for carrying on the business of life insurance. The Company's Certificate of Renewal of Registration dated January 31, 2014 was valid till March 31, 2015. Pursuant to section 3 read with Section 3A as amended by Insurance Laws (Amendment) Act, 2015, the process of annual renewal of the Certificate of Registration issued to insurers under Section 3 of the Insurance Act, 1938, was removed. Consequently, the said certificate continues to be in force.

2. Statutory Dues

The Company confirms that all the dues payable to the statutory authorities have been duly paid, except those which are being contested or disclosed under contingent liabilities in the notes to accounts forming part of the financial statements.

3. Shareholding Pattern

The Company confirms that the shareholding pattern of the Company is in accordance with the requirements of the Insurance Act, 1938 as amended by the Insurance Laws (Amendment) Act, 2015, ('Act') and the Insurance Regulatory and Development Authority (Registration of Indian Insurance Companies) Regulations, 2000. Further, transfer of shares during the year have been in compliance with the requirements as applicable and prescribed in the Act. During the year, the Company has allotted Equity Shares to certain option holders against exercise of Stock Options granted to them pursuant to Employee Stock Option Schemes formulated by the Company in FY 2015 and FY 2016. The detailed shareholding pattern is available in Schedule 5A, forming part of financial statements.

4. Investments Outside India

The Company has not, directly or indirectly, invested in any securities outside India from the funds of the holders of policies, issued in India.

5. Solvency Margin

The Company has adequate assets to maintain its solvency margins as required by the Insurance Act, 1938 during the period, as stipulated under Section 64VA of the Insurance Act, 1938 and the IRDAI (Assets, Liabilities and Solvency Margin of Insurers) Regulations, 2016.

The actual solvency ratio as compared to required minimum solvency ratio of 150% is as below:

Particulars	As at March 31, 2017	As at March 31, 2016
Solvency ratio	192%	198%

6. Valuation of Assets

The Company certifies that the values of all assets of the Company have been reviewed on the date of the Balance Sheet and, to the best of our knowledge and belief, the assets set forth in the Balance Sheet are shown in the aggregate at amounts not exceeding their realisable or market value under the several headings - "Loans", "Investments", "Agents balances", "Outstanding premiums", "Interest, Dividend and rents outstanding", "Interest, Dividends and rents accruing but not due", "Amounts due from other persons or bodies carrying on insurance business", "Sundry debtors", "Bills Receivable", "Cash" and items specified under "Other accounts" except debt securities which are valued at amortised cost as per IRDAI regulations in case of non linked policyholder's funds and shareholders' investments.

7. Application and Investments of Life Insurance Funds

The Company certifies that no part of the life insurance fund have been directly or indirectly applied in contravention of the provisions of the Insurance Act, 1938 (4 of 1938) (amended by the Insurance Laws (Amendment) Act, 2015), and in accordance with IRDA (Investment) -Regulations, 2000 and Orders/directions issued by IRDAI thereafter, except for investment deviations in relation to the Investment regulation changes which has been communicated to the Authority.

8. Overall Risk Exposure and Mitigation Strategies

Enterprise Risk Management framework forms the core of all operations at HDFC Life. It enables risks to be identified, assessed, controlled and monitored consistently,

Management Report for the year ended March 31, 2017

objectively and holistically. The Company has a Risk Management Team in place guided by the Company's core Risk Management Committee, Risk management Council and Senior Management to develop and implement risk assurance practices on a pan-organisational basis. The mitigation strategy with respect to various risks as covered under the current Risk Management framework is:

a) Insurance Risk

Due to its inherent nature of business, the Company exposes itself to a large number of risks. The risks may relate to expenses it incurs in carrying on its business, mortality and morbidity rates and persistency of its policyholders.

Expense Risk - The Company seeks to minimise its expense risk by the use of stringent expense control mechanism.

Mortality and Morbidity Risk - The Company seeks to minimise mortality and morbidity risks by diversifying its business portfolio, adhering to appropriate underwriting norms, intensive monitoring of the retention limits and diversification of the risk through reinsurance arrangements with financially sound reinsurers.

Persistency Risk - The Company analyses all the assumptions used in product pricing and calculation of embedded value and ensure that the same is in line with the actual experience. Also, strategic measures and initiatives are undertaken to ensure that the persistency ratios remain healthy.

The Company seeks to minimise potential impact of all insurance risks by an on-going monitoring of insurance risk experience, implementation of appropriate controls, and adjusting its products, processes and plans accordingly.

b) Investment Risks - Market Risk, Credit Risk and Liquidity Risk

Investment Performance can be affected due to systematic risks which involves factors that affect the overall economy and unsystematic risk which is specific to Investee Company or industry.

The Company seeks to manage its investment risk by ensuring investments are made in high quality assets, which matches its liabilities both by nature and term to

the extent that is necessary and possible. The Company has constituted an Investment Committee, which acts as the policy making body for the investment operations. The Investment Committee periodically discusses the investment strategy, portfolio structures, performance of the portfolio and related issues and ensure that the Company has well defined investment policies & processes to manage all the investment risks. All Regulatory and Internal norms are built in the Investment system, which monitors the Investment limits and exposure norms on real-time basis. The Company also uses MSCI Barra One application for performance attribution and risk analysis.

c) Asset-Liability Mismatch Risk

The risk arises due to mismatch caused by market factors, between the asset and liability cash flows.

The Company's ALM Policy lays down the Investment / Asset Allocation strategy to manage risks for various liabilities depending on their nature and tenure. The Company has constituted an internal Asset Liability Management Committee (ALCO) that monitors asset liability mismatch risk along with other market and insurance risks and it also formulates, implements and reviews strategies to achieve the stated financial objectives given the risk tolerance.

d) Operational Risk

By nature of its business, the Company is exposed to various types of operational risk, which arise from various sources including inadequate record keeping, failures of systems, employee error and internal/external frauds. The Company seeks to minimise the impact of these risks by regular monitoring of processes, systems and procedures, implementation of controls, adherence to malpractice matrix for controlling frauds and ensuring back-ups for both systems and data are maintained. Necessary Insurance taken for all identified operational risk of the Company are also reviewed at regular intervals.

The Company takes a holistic approach to identify, measure, control and monitor fraud risk through the Fraud Prevention Policy and also formulated a separate vertical (Risk Monitoring & Control Unit (RMCU)) to design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events and negative surprises.

Management Report for the year ended March 31, 2017

Business interruption risk also forms an integral part of operations risk. Since the Company can face a host of disasters that range from minor to catastrophic like fire/ data centre failure/earthquake etc. which can impact day-to-day operations, the Company seeks to minimise the risk by having a robust Business Continuity Plan (BCP) in place to manage such business interruption risks. Disaster recovery site has been set up to carry critical processes in adverse scenario. Business continuity drills are carried on yearly basis for critical processes and outsource partners to manage business interruption risks.

The Company has well defined information security policy including areas of cyber security that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organisation.

e) Compliance Risk

Sound compliance management process and information systems with a strong control culture have proven effective in managing compliance risk. Accountability & authority for compliance are clearly defined and enforced. Compliance tracker is maintained by the compliance department to manage timelines that are of regulatory nature. All regulatory reporting are published on periodic basis to the relevant stakeholders and timely submission of the reports due is ensured. Appropriate controls and systems are implemented to identify compliance problems and assess performance. The Company also has in place a self assessment compliance Mechanism which is to be adhered by all departments.

f) Strategic Risk

Strategic risk is associated with an organisation's mission and future business plans. Detailed analysis is conducted every year to gauge changes in macro economic factors, government policies and regulatory environment. In addition, movement on these parameters are discussed with the Board every quarter along with the management's point of view and recommended action plan. In addition to this, the Life Council and IRDAI share the organisation's view point on steps to increase life insurance penetration, reduce impact of regulatory changes.

The Internal audit department performs regular risk based audits and reports the findings to the audit committee on regular basis. The Company's internal auditors review the

processes, systems and procedures regularly. Reports of the auditors and the updates by risk management team as well as the actions taken are reported to the Audit Committee and Risk Management Committee of the Board respectively.

Internal Financial Controls: The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes. The internal audit, in addition to ensuring compliance to policies, regulations, processes etc., also test and report adequacy of internal financial controls with reference to financial reporting/statements.

9. Operations in other Countries

The Company has a liaison office in Dubai; however, all policies are underwritten and issued in India. The Company has made investment in 100% wholly owned foreign subsidiary 'HDFC International Life and Re Company Limited' incorporated in Dubai under the DIFC (Dubai International Finance Centre) Companies Law on January 10, 2016 to carry out life reinsurance business. The amount of capital for this subsidiary is invested outside India and hence the Company is exposed to country risk.

10. Ageing of Claims

The trend of average claims settlement time for the current year and last 5 preceding years, from the day all necessary documents are submitted to the Company till cheque has been dispatched/NEFT payment is processed, are as follows:

Years	Average time taken for claim settlement (No. in days)
FY 2017	5
FY 2016	8
FY 2015	10
FY 2014	10
FY 2013	10

For linked and traditional business details of claims registered and settled are attached as Annexure "A" and the details of claims registered and not settled are attached as Annexure "B".

11. Valuation of Investments

Independent Auditors' Report

TO THE MEMBERS OF HDFC STANDARD LIFE INSURANCE COMPANY LIMITED

Report on the Consolidated Financial Statements

1. We have audited the accompanying consolidated financial statements of HDFC STANDARD LIFE INSURANCE COMPANY LIMITED ("hereinafter referred to as the Holding Company"), and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") (refer Schedule 16 to the attached consolidated financial statements), comprising of the consolidated Balance Sheet as at March 31, 2017, the related Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Statement of Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Consolidated Receipts and Payment Account for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Financial Statements").

Management's Responsibility for the Consolidated Financial Statements

2. The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated receipts and payments of the Group in accordance with accounting principles generally accepted in India including the provisions of The Insurance Act, 1938 (the "Insurance Act") (amended by the Insurance Laws (Amendment) Act, 2015), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/directions/circulars issued by the Insurance

Regulatory and Development Authority of India (the "IRDAI") in this regard and the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of Consolidated Financial Statements. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report.

4. We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditors' Report

5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.
6. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Paragraph 8 under the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at March 31, 2017, the related Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the consolidated Receipts and Payments Account for the year ended on that date.

Other Matters

8. We did not audit the financial statements of two

subsidiaries, whose financial statements reflect total assets of ₹ 1,119,527 (in '000') and net assets of ₹ 1,090,381 (in '000') as at March 31, 2017, total revenue of ₹ 35,179 (in '000'), net loss of ₹ 52,179 (in '000') and net cash flows amounting to ₹ (796,379) (in '000') for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated financial statements in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

9. The actuarial valuation of liabilities for life policies in-force and policies where premium is discontinued is the responsibility of the Holding Company's Appointed Actuary (the "Appointed Actuary"), which has been certified by the Appointed Actuary in accordance with the regulations, as mentioned in paragraph 12 (g) below. Accordingly, we have relied upon the Appointed Actuary's certificate for forming our opinion on the financial statements of the Group.
10. The financial statements of the Group for the year ended March 31, 2016 were audited by Price Waterhouse Chartered Accountants LLP and Haribhakti & Co. LLP Chartered Accountants who, vide their audit report dated April 18, 2016 have expressed as unmodified opinion thereon.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditor.

Report on Other Legal and Regulatory Requirements

11. As required by Section 143 (3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our

Independent Auditors' Report

knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

- (b) In our opinion, proper books of account as required by law, maintained by the Holding Company and its subsidiaries included in the Group incorporated in India including relevant records, relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and records of the Holding Company and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Revenue Account, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained by the Holding Company, its subsidiaries included in the Group incorporated in India, including relevant records relating to the preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 to the extent they are not inconsistent with the accounting principles prescribed in the Regulations and orders / directions issued by the IRDAI in this behalf.
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2017 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the companies of the Group incorporated in India, is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiary company incorporated in India and the operating effectiveness of such controls, refer to our separate Report in Annexure A.
- (g) The actuarial valuation of liabilities for life policies in-force and for policies where premium has been discontinued but liability exists as at March 31, 2017 of Holding company has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that in his opinion, the assumptions for such valuation are in accordance with the generally accepted actuarial principles and practices, requirements of the Insurance Act, regulations notified by the IRDAI and Actuarial Practice Standards issued by the Institute of Actuaries of India in concurrence with the IRDAI;
- (h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact, if any, of pending litigations as at March 31, 2017 on the consolidated financial position of the Group- Refer Schedule 16 (B) Note 2 to the consolidated financial statements.
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts as at March 31, 2017- Refer Schedule 16 (B) Note 22 to the consolidated financial statements in respect of such items as it relates to the Group.

Annexure A to Independent Auditors' Report

(Referred to in Paragraph 11 (f) of our Report on Other Legal and Regulatory Requirements forming part of the Independent Auditors' Report dated May 3, 2017)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of HDFC Standard Life Insurance Company Limited (hereinafter referred to as "the Holding Company") and its subsidiary company which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial

controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally

Annexure A to Independent Auditors' Report

accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and a subsidiary company which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial

reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. Our aforesaid reports under Section 143 (3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to the subsidiary company, which is company incorporated in India, is based on the corresponding reports of the auditors of such company incorporated in India. Our opinion is not qualified in respect of this matter.
10. The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the regulations, and has been relied upon by us, as mentioned in Para 9 and 11(g) of our audit report on the consolidated financial statements for the year ended March 31, 2017. Accordingly, our opinion on the internal financial controls over financial reporting does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

Corporate Information

HDFC Standard Life Insurance Company Limited ('HDFC Life' or 'The Company'), is formed as a joint venture between Housing Development Finance Corporation Limited ('HDFC Limited'), India's leading housing finance institution and Standard Life plc, the leading provider of financial services in the United Kingdom. The Company obtained a Certificate of Registration from the Insurance Regulatory and Development Authority of India ('IRDAI') on October 23, 2000 for carrying on the business of life insurance. The Company's Certificate of Renewal of Registration dated January 31, 2014 was valid till March 31, 2015. Pursuant to Section 3 read with Section 3A as amended by Insurance Laws (Amendment) Act, 2015, the process of annual renewal of the Certificate of Registration issued to insurers under Section 3 of the Insurance Act, 1938, was deleted. Consequently, the said certificate continues to be in force. The Company offers a range of individual and group insurance solutions. The portfolio comprises of various insurance and investment products such as Protection, Pension, Savings, Investment and Health.

The Company has two wholly owned Subsidiaries, HDFC Pension Management Company Limited ('HDFC Pension') and HDFC International Life and Re Company Limited. HDFC Pension ('the Indian Subsidiary') is a public limited company domiciled in India and was incorporated under the provisions of the erstwhile Companies Act, 1956 on June 20, 2011 with the purpose of managing pension fund business. HDFC International Life and Re Company Limited ('the Foreign Subsidiary') incorporated in Dubai on January 10, 2016 under the DIFC (Dubai International Finance Centre) Companies Law No. 2 of 2009 under registration number 2067. HDFC International Life & Re Company Limited is regulated by the Dubai Financial Services Authority ("DFSA") and is licensed to undertake life reinsurance business in the UAE. In future, the Company intends to undertake life insurance business in other jurisdictions, with necessary regulatory permissions and approvals.

These financial statements comprise the consolidated financial statements of HDFC Standard Life Insurance Company Limited, the parent company and its wholly owned subsidiaries 'HDFC Pension Management Company Limited' and 'HDFC International Life and Re Company Limited' (together referred to as "the Group")

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of consolidation

- a) These consolidated financial statements for the Group are prepared in accordance with the principles and procedures for preparation and presentation of consolidated financial statements as laid down under the Accounting Standard (AS) 21, "Consolidated Financial Statements" and are presented in the same format as that of the Company. The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together similar items of assets, liabilities, income and expenses after eliminating intra-group balances, transactions and resulting unrealised profits/losses.
- b) The Company, its Indian Subsidiary and its Foreign Subsidiary are governed by different regulations and lack homogeneity of business, hence adjustments have been made to the financial statements of the two subsidiaries for the accounting policies at the time of consolidation to the extent it is practicable to do so. Where it is not practicable to make adjustments and as a result the accounting policies differ, respective accounting policies of the Company and its subsidiaries as applied to such items have been disclosed.
- c) The notes to the consolidated financial statements for the Group are intended to serve as a means of informative disclosure and a guide towards better understanding of the consolidated position of the Group. The Group has disclosed such notes from the standalone financial statements of the Company and its subsidiaries which are necessary for presenting a true and fair view of the consolidated financial statements.

2. Basis of preparation

These consolidated financial statements are prepared under the historical cost convention on an accrual basis of accounting in accordance with the Indian Generally Accepted Accounting Principles (GAAP), the accounting principles prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ('the Financial Statements Regulations'), the Master Circular on 'Preparation of Financial Statements and Filing Returns of Life Insurance Business' Ref No.

Schedules

IRDA/F&A/Cir/232/12/2013 dated December 11, 2013 ('the Master Circular') and other circulars issued by the IRDAI from time to time, provisions of the Insurance Act, 1938 as amended from time to time including the amendment brought by the Insurance Laws (Amendment) Act, 2015, the Insurance Regulatory and Development Authority Act, 1999, as amended from time to time, the Companies Act, 1956, as amended from time to time, to the extent applicable and the Companies Act, 2013. Pursuant to Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, till the accounting standards or any addendum thereto are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing accounting standards notified under Companies Act, 1956, shall continue to apply. Consequently, these financial statements have been prepared also to comply in all material aspects with the accounting standards notified under Section 211 (3C) of the Companies Act, 1956 i.e. Companies (Accounting Standards) Rules, 2006, as amended, to the extent applicable. Accounting policies have been consistently applied to the extent applicable and in the manner so required.

3. Use of estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities and disclosures relating to contingent liabilities as on the date of the consolidated financial statements. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as on the date of the consolidated financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is accounted for prospectively.

4. Revenue recognition

Schedules

day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

Unlisted preference shares other than redeemable preference shares and listed preference (other than redeemable preference) shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI are valued at historical cost, subject to provision for diminution in the value, if any, of such investments determined separately for each individual investment.

b) **Linked business**

Listed preference shares are valued and stated at fair value, being the last quoted closing price on the Primary Exchange i.e. the NSE at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising on such valuations are accounted for in the Consolidated Revenue Account.

Listed preference shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution in the value, if any, of such investment determined separately for each individual investment.

V. **Mutual funds**

a) **Non-linked business, non-unit reserve investments and shareholders' investments**

Mutual fund units held at the Balance Sheet date are valued at previous business day's Net Asset Value (NAV) per unit. Unrealised gains or losses arising

due to changes in the fair value of mutual fund units are recognised under the head 'Fair Value Change Account' in the Consolidated Balance Sheet.

b) **Linked business**

Mutual fund units held at the Balance Sheet date are valued at previous business day's NAV per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised in the Consolidated Revenue Account.

VI. **Interest Rate Derivatives**

Interest Rate Derivatives (IRDs) contracted to hedge highly probable forecasted transactions on insurance contracts in life, pension and annuity business are recognised at fair value, on the date on which the interest rate derivative contracts are entered into and are re-measured at the fair value on the Balance Sheet date.

Interest rate derivative contracts for hedging of highly probable forecasted transactions on insurance contracts, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2017.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter. The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. 'Hedge Reserve' under the head 'Credit/(Debit) Fair Value Change Account'. Such accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Consolidated Revenue Account, in the same period during which the asset acquired or liability assumed affects the Consolidated Revenue Account. In the event that all or any portion of loss, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Consolidated Revenue Account.

Schedules

Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Consolidated Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

C) Valuation of investments of Subsidiaries

In respect of the Indian Subsidiary, short term investments (current investments) are valued at lower of cost or fair value for which valuation is determined for each individual investment. Long term investments are valued at cost, subject to amortisation of premium or accretion of discount computed at the time of purchase of investments, over the period of maturity/holding, on a straight line basis. Provision for diminution in value is made to recognise a decline, other than temporary, in the value of the investments.

In respect of the Foreign Subsidiary non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held to maturity when the Company has the positive intention and ability to hold until maturity. After initial measurement, held to maturity financial assets are measured at amortised cost, using the EIR, less impairment.

D) Impairment of investments

The Company periodically assesses at each Balance Sheet date whether there is any indication of impairment of investments or reversal of impairment loss earlier recognised. An impairment loss is accounted for as an expense and disclosed under the head 'Provision for diminution in the value of investment (net)' in the Consolidated Revenue Account or the Consolidated Profit and Loss Account to the extent of the difference between the re-measured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Consolidated Revenue Account or Consolidated Profit and Loss Account.

Any reversal of impairment loss earlier recognised for in Consolidated Revenue Account or Consolidated Profit and Loss Account, is accounted in the Consolidated Revenue Account or Consolidated Profit and Loss Account respectively.

E) Provision for Non Performing Assets (NPA)

All assets where the interest and/or instalment of principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in the manner required by the IRDAI regulations on this behalf.

F) Transfer of investments from Shareholders' fund to Policyholders' fund

Transfers of investments other than debt securities, as and when made from Shareholders' fund to the Policyholders' fund, to meet the deficit in the Policyholders' account, are made at the cost price or market price, whichever is lower.

Transfers of debt securities, from Shareholders' fund to Policyholders' fund, as and when made, are made at the net amortised cost or the market value, whichever is lower.

G) Transfer of investments between non-linked Policyholders' funds

No transfers of investments are made between non-linked Policyholders' funds.

H) Purchase and sale transactions between unit linked funds

The purchase and sale of investments between unit linked funds is accounted for at the prevailing market price on the date of purchase or sale of investments.

In case of debt securities, if prevailing market price of any security is not available on the date of transfer of investment, the last available price is considered.

9. Policy liabilities

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938, as amended from time to time including amendment brought by the Insurance Laws (Amendment) Act, 2015, regulations notified by the IRDAI and Actuarial Practice Standard (APS) issued by the Institute of Actuaries of India with the concurrence of the IRDAI.

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDAI (Assets, Liabilities and Solvency Margin) Regulations, 2016 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual and group) comprises of unit reserves and non-unit reserves.

Schedules

The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium method.

3. The liabilities for individual non-linked non-participating and participating business are calculated using gross premium method and are subject to the minimum floor of surrender value. Additionally, individual non-linked participating policies also have a reference to the asset share of policies at valuation date.
4. The liabilities for one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, the liabilities are calculated using gross premium valuation method.
5. The liabilities for the group non-linked savings products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.
6. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
7. Additional reserves are determined to:
 - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported).
 - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business).
 - c. meet the expected liabilities that would arise on the revival of lapsed policies on the basis of the proportion of the policies expected to be revived based on the revival experience of the Company (Revival Reserve).
 - d. allow for the additional amount required to be paid on account of cancellation of policies due to look in, on the basis of the proportion of the policies expected to exercise the look-in option based on the experience of the Company (Look in Reserve).
 - e. allow for the cost of guarantees, wherever applicable.

10. Reinsurance contract Liabilities

- a. Reserve for future expected claims
Reserve created for long term insurance contracts (products more than one year) to cover all future claim liabilities as determined by the Actuary. The reserve is held for the claims expected to be incurred in future

on the reinsurance contracts in force at the date of valuation.

- b. Incurred But Not Reported (IBNR)
As significant time lags may exist between incurrence of claims and notification of the claims to the Company, a reserve for incurred but not reported claims is held.
- c. Allocated Loss Adjustment Expense (ALAE)
These represents future claim expenses and related handling costs.

11. Unclaimed amount of policyholders:

Assets held for unclaimed amount of policyholders is created and maintained in accordance with the requirement of IRDAI circular No. IRDA/F&A/CIR/GLD/195/08/124 dated August 14, 2014, IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015, IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015 and Investment Regulations, 2016 as amended from time to time:

- a. Unclaimed amount of policyholders are invested in money market instruments and / or fixed deposits of scheduled banks.
Money market instruments are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis. Fixed deposits are valued at cost.
- b. Income on unclaimed amount of policyholders is credited to respective unclaimed account and is accounted for on an accrual basis.
- c. Amount payable on account of income earned on assets held for unclaimed amount of policyholders is accounted for on an accrual basis and is disclosed net of fund management charges.
- d. Unclaimed amount of policyholders liability is determined on the basis of NAV of the units outstanding as at the valuation date.

12. Fixed assets and Depreciation/Amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, being low value assets are fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Schedules

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress. Advances given towards acquisition of fixed assets are disclosed in 'Advance and other assets' in Consolidated Balance Sheet.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of asset sold, up to the previous month of sale. In respect of expenditure incurred on acquisition of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is recognised in the Consolidated Revenue Account / Consolidated Profit and Loss Account.

Tangible assets

The Company has adopted straight line method of depreciation so as to depreciate the cost of following type of assets over the useful life of these respective assets which are as follows:

Asset class	Useful life of assets (years)
Building	60
Information technology equipment-End user devices [^]	3
Information technology equipment-Servers and network* [^]	4
Furniture & Fixtures* [^]	5
Motor Vehicles* [^]	4
Office Equipment [^]	5

* For these class of assets, based on internal and/or external assessment/ technical evaluation carried out by the management, the management believes that the lives as mentioned above best represent the useful life of these respective assets, however these are lower than as prescribed under Part C of Schedule II of the Companies Act, 2013.

[^] For these class of assets, based on internal assessment carried out by the management, the residual value is considered to be nil.

Leasehold improvements are depreciated over the lock in period of the leased premises subject to a maximum of five years.

Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment, if any. These are amortised over the useful life of the software subject to maximum of four years. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Any expenditure for support & maintenance of the computer software is charged to the Consolidated Revenue Account.

13. Impairment of assets

The Company periodically assesses, using internal and external sources, whether there is any indication of impairment of asset. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer necessary or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets.

14. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for accumulated impairment losses and provision for NPA, if any.

15. Foreign currency transactions

In accordance with the requirements of Accounting Standard (AS) 11, "The Effects of Changes in Foreign Exchange Rates", transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction, at the time of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions are recognised in the period in which they arise either in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be.

In case of Foreign Subsidiary, being non-integral foreign operations, income and expenses are translated at the average rate prevailing during the year. All the assets and liabilities, both monetary and non-monetary, are translated at the rate prevailing at Balance Sheet date. The resultant translation

Schedules

gains and losses are disclosed as 'Foreign currency translation reserve' in 'Reserve and Surplus' under Shareholders' Funds in the Consolidated Balance Sheet.

16. Segmental reporting

Identification of segments

As per Accounting Standard (AS) 17, "Segment Reporting", read with the Financial Statements Regulations, the Company has prepared the Consolidated Segmental Revenue Account and the Consolidated Segmental Information for the primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating - Annuity, Non Participating - Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life, Unit Linked - Group Pension. Since the business operations of the Company are given effect to in India and all the policies are written in India only, this is considered as one geographical segment.

Allocation methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

- a) Revenue, expenses, assets and liabilities, which are directly attributable and identifiable to the respective business segments, are directly allocated for in that respective segment; and
- b) Revenue, expenses, assets and liabilities which are not directly identifiable to a business segment though attributable and other indirect expenses which are not attributable to a business segment, are allocated based on one or combination of some of the following parameters, as considered appropriate by the management:
 - i) effective premium income
 - ii) number of policies
 - iii) number of employees
 - iv) man hours utilised
 - v) premium income
 - vi) commission
 - vii) sum assured
 - viii) mean fund size
 - ix) operating expenses
 - x) benefits paid

The accounting policies used in segmental reporting are the same as those used in the preparation of the consolidated financial statements.

17. Employee benefits

A) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance Scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme are accounted for in the period in which the employee renders the related service. All short term employee benefits are accounted for on an undiscounted basis.

B) Post-employment benefits

The Company has both defined contribution and defined benefit plans.

(i) Defined contribution plans:

The Superannuation Scheme, Employee Provident Fund Scheme (Company contribution) and the National Pension Scheme (Company contribution) are the defined contribution plans. The contributions paid/payable under the plan are made when due and charged to the Consolidated Revenue Account on an undiscounted basis during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

(ii) Defined benefit plans:

In case of the Company, the Gratuity plan is the defined benefit plan, which is a funded plan. The gratuity benefit payable to the employees of the Company is as per the provisions of 'The Payment of Gratuity Act, 1972'. The present value of the obligations under such defined benefit plan is determined on the basis of actuarial valuation using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation, The discount rate used for actuarial valuation is based on the yield of Government Securities.

The Company fully contributes the net ascertained liabilities under the plan to the HDFC Life Insurance Company Limited Employees

Schedules

Group Gratuity Plan. The Company recognises the net defined benefit obligation of the gratuity plan, taking into consideration the defined benefit obligation using actuarial valuation and the fair value of plan assets at the Balance Sheet date in accordance with Accounting Standard (AS) 15 (Revised), 'Employee Benefits'.

In case of both the subsidiaries, Gratuity plan is an unfunded defined benefit plan. In case of Indian Subsidiary, gratuity benefit payable to the employees is as per the provisions of 'The Payment of Gratuity Act, 1972'. In case of the Foreign Subsidiary, the gratuity benefit payable to the employees employed in UAE is in accordance with the DIFC Employment Law. The present value of the obligation under such defined benefit plans in case of both the subsidiaries is determined based on the actuarial valuation at the Balance Sheet date using the projected unit credit method. Provision for gratuity is accounted for taking into consideration the actuarial valuation of plan obligation as at the Balance Sheet date.

Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be, in the period in which they arise.

C) Other long term employee benefits

Other long term employee benefits include accumulated long term compensated absences and long term incentive plans. Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment at the option of the employee subject to Company's policies and are accounted for based on actuarial valuation determined using the projected unit credit method.

Long term incentive plans are subject to fulfilment of criteria prescribed by the Company and are accounted for at the present value of expected future expected benefits payable using an appropriate discount rate.

Actuarial gains or losses, if any, due to experience adjustments and the effects of change in actuarial assumptions are accounted for in the Consolidated Revenue Account or the Consolidated Profit and Loss Account, as the case may be in the period in which they arise.

18. Employee Stock Option Scheme (ESOS)

The Company has formulated Employee Stock Option Scheme 2005 (ESOS 2005), Employee Stock Option

Scheme 2010 (ESOS 2010), Employee Stock Option Scheme 2011 (ESOS 2011) and Employee Stock Option Scheme 2012 (ESOS 2012), which are administered through the HDFC Standard Life Employees Stock Option Trust ("the Trust") and Employee Stock Option Scheme 2014 (ESOS 2014) and Employees Stock Option Scheme (ESOS 2015) which is directly administered by the Company. During the year, the Company has formulated Employee Stock Option Scheme 2016 (ESOS 2016) which is also directly administered by the Company. The schemes provide that eligible employees are granted options that vest in a graded manner to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis in accordance with the 'Guidance Note on Accounting for Employee Share based Payments', issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is the amount by which the value of the underlying share determined by an independent valuer exceeds the exercise price of an option. The intrinsic value of options, if any, at the grant date is amortised over the vesting period.

19. Provisions, contingent liabilities and contingent assets

Provisions are accounted for in respect of present obligations arising out of past events where it is probable that an outflow of resources will be required to settle the obligation and the amounts of which can be reliably estimated. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability.

Contingent liabilities are disclosed in respect of;

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) present obligations that arise from past events, which are not recognised because of remote probability that an outflow of resources embodying economic benefits will be required to settle the obligations or a reliable estimate of the amounts of the obligations cannot be made.

Contingent assets are neither accounted for nor disclosed.

20. Leases

A) Finance leases

Leases under which the lessee assumes substantially all the risk and rewards of ownership of the asset

Schedules

are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

B) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the lease term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

21. Taxation:

A) Direct tax

i) Provision for income tax

In case of the Company, provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

In case of the Indian Subsidiary, provision for income tax is made in accordance with the provisions of the Income Tax Act, 1961 as applicable to the Company carrying on pension business. Where tax liability has been provided based on Minimum alternate tax (MAT) provisions, MAT credit is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period.

There is no tax liability as per the local tax laws in case of the Foreign Subsidiary.

ii) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", with respect to the carry forward of losses under the Income Tax regulations, the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

B) Indirect tax

The Company claims credit of service tax on input services, which is set off against service tax on output services. As a matter of prudence, unutilised credits

towards service tax on input services are carried forward under Schedule 12 - 'Advances and Other Assets' in the Consolidated Balance Sheet, wherever there is reasonable certainty of utilisation.

22. Funds for Future Appropriations

Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from the fund reflect the excess/deficit of income over expenses respectively and appropriations in each accounting period arising in the Company's Policyholders' Fund. Any allocation to the par policyholders would also give rise to a transfer to Consolidated Profit and Loss Account in the required proportion.

The FFA in the linked segment represents surplus on the lapsed policies issued prior to September 2010 and unlikely to be revived. This surplus is required to be held within the Policyholders' Fund till the time policyholders are eligible for revival of their policies.

23. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are treated as dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

24. Cash and cash equivalents

Cash and cash equivalents for the purposes of Consolidated Receipts and Payments account comprise of cash and cheques in hand, bank balances, fixed deposits with original maturity of three months or less, CBLO, Reverse Repo, highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value. Consolidated Receipts and Payments Account is prepared and reported using the Direct Method in accordance with Accounting Standard (AS) 3, "Cash Flow Statements" as per requirements of Para 2.2 of the Master Circular.

f)	Reinsurance obligations	-	-
g)	Others	353	316
	Total	6,657,306	1,002,774

Statutory demands and liabilities in dispute, not provided for relate to the show cause cum demand notices/assessment orders received by the Company from the respective tax authorities. The Company has filed appeals against the show cause cum demand notices/assessment orders with the appellate authorities and has been advised by the experts that the grounds of appeal are well supported in law in view of which the Company does not expect any liability to arise in this regard.

2. Pending litigations

The Company's pending litigations comprise of claims against the Company primarily on account of proceedings pending with Tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a material adverse on its financial results as at March 31, 2017. Refer Note 1 of Schedule 16(B) for details on contingent liability.

3. Indian Subsidiary - Letter of Appointment

In January 2014, a fresh Request for Proposal ('RFP') was floated by the PFRDA seeking bids from Sponsors for selection of pension fund managers afresh to manage the pension funds. In response to the RFP, HDFC life ('the Sponsor') had submitted its technical and commercial bid. The technical bid made under RFP was opened in April 2014 and the bid submitted by the Sponsor was not accepted by the PFRDA on technical

grounds of not having profitability for a period of 3 years. The Sponsor, therefore, filed a Writ Petition before the Hon'ble High Court of Delhi, challenging the said rejection. The Hon'ble High Court of Delhi by its Order dated May 15, 2014 quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to evaluate the bid in accordance with the steps set out in the RFP. While the PFRDA cleared the Sponsor's technical and commercial bid and the Sponsor even agreed to match the lowest commercial bid, the PFRDA declined to grant the Sponsor a 'Letter of Appointment'. The Sponsor, therefore, filed another Writ Petition before the Hon'ble High Court of Delhi against the rejection. Vide its Order dated December 18, 2014 the Hon'ble High Court of Delhi quashed and set aside the PFRDA's rejection of the Sponsor's bid and directed the PFRDA to grant HDFC Life a 'Letter of Appointment' to act as a Sponsor. Subsequently, the PFRDA has filed a Special Leave Petition before the Hon'ble Supreme Court of India challenging the above said Order dated December 18, 2014. The Hon'ble Supreme Court, by its Order dated March 9, 2015, refused to grant the PFRDA any ad-interim relief and the matter is presently pending hearing. On March 27, 2015, complying with the High Court order, the PFRDA had issued a 'Letter of Appointment' in favour of the Sponsor, stating inter alia that such appointment is subject to the outcome of the above proceedings filed before the Hon'ble Supreme Court. The Indian Subsidiary has obtained an opinion from its lawyers, as per which the Company stands a fairly good chance of succeeding in the matter.

Schedules

It may be noted that the PFRDA (Pension Fund) Regulations, 2015 were notified in May 2015, pursuant to which re-registration of all pension funds was sought by the PFRDA. The Indian Subsidiary has submitted its application for the same, and a response from the PFRDA is awaited. However, vide a letter dated June 24, 2016, the PFRDA, while acknowledging our submission of annual fees, had granted an extension to continue as a pension fund until the selection of pension funds in terms of process specified under PFRDA (Pension Fund) Regulations, 2015. This extension was subject to the Order of the Supreme Court of India on the appeal filed against the Order of the High Court of Delhi.

During the year, the PFRDA had issued a fresh RFP for selection of pension funds for private sector, pursuant to which the Sponsor had submitted a technical and commercial bid. On November 29, 2016 the PFRDA issued a notice that the commercial bid would be opened on November 30, 2016 wherein the name of HDFC Life was included which implies that the technical bid of HDFC Life has been accepted. HDFC Pension is also given to understand that the commercial bid submitted by HDFC Life has also been accepted by the PFRDA and formal issuance of letter of appointment is awaited.

4. Actuarial assumptions

The policyholders' actuarial liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to interest, expenses, mortality, morbidity, persistency and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used in actuarial valuation is as below:

- a) Interest rate assumptions:**
The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product and are in the range of 5.20 % to 7.35% (Previous year: 5.20% to 7.00%).
- b) Mortality assumptions:**
Mortality assumptions are set in accordance with Clause 5(2) of Schedule II of the IRDAI (Assets Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016 in reference to the published Indian Assured Lives Mortality table (2006-08) and are based on the latest experience analysis of the business.
In the case of annuity benefits, mortality assumption is based on the LIC Annuitants (1996-1998) table.
- c) Expense assumptions:**
The expense assumptions are set on the basis of the expense analysis. These are fixed renewal expenses and investment expenses charged as a % of fund. The renewal and claim expenses are increased at an inflation rate of 7.5% p.a.
- d) Persistency assumptions:**
The persistency assumptions are also based on the most recent experience of the Company and vary according to the premium frequency and type of the product.
- e) Provision for free-look period:**
If a policy which is in force as at the valuation date is subsequently cancelled in the free-look period, then there could be a strain in the policyholders' fund on account of the amount payable on free-look cancellation, to the extent the amount is higher than reserves held for that policy. In order to avoid the future valuation strain as a result of the free look cancellations, reserves on account of the above are held. The free look reserve is calculated as total strain for all policies that are eligible for free look cancellations at the valuation date, multiplied by a factor, representing the expected assumptions for free look cancellations.
- f) Bonus rates:**
The bonus rates for the participating business to be declared in the future is based on the interest expected to be earned as per the valuation assumptions.
- g) Tax:**
The tax rate as applicable to insurance companies carrying on insurance business is 14.42 % p.a (Previous year 14.42% p.a) for the year.

6. Employee Stock Option Scheme (ESOS)

The Company has granted options to employees under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 schemes. These schemes are administered by the HDFC Standard Life Employees Stock Option Trust. The Trust had subscribed to the capital of the Company and also acquired shares of the Company from Housing Development Finance Corporation Limited, the holding company. The options are granted to the employees from these tranches of shares. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company has also granted options to its employees under the ESOS 2014 scheme, ESOS 2015 scheme and ESOS 2016 schemes. The said schemes are directly administered by the Company. The exercise price of ESOS 2014, ESOS 2015 and of ESOS 2016 schemes is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI.

The Company follows the intrinsic value method of accounting for stock options granted to employees. The intrinsic value of the options issued under the above referred scheme is ₹ Nil as the exercise price of the option is the same as fair value of the underlying share on the grant date and accordingly, no expenses are recognised in the books. Had the Company followed the fair value method for valuing its options, the charge to the Consolidated Revenue Account / Consolidated Profit & Loss Account for the year would have aggregated to ₹ 224,706 thousands (Previous year ₹ 266,023 thousands) and the profit after tax would have been lower by ₹ 122,056 thousands (Previous year ₹ 155,579 thousands). Consequently, the Company's basic and diluted earnings per share would have been ₹ 4.38 and ₹ 4.36 respectively (Previous year ₹ 4.02 and ₹ 4.01 respectively).

Salient features of all the existing grants under the seven schemes are as stated below:

A) ESOS 2005

There are seven grants upto March 31, 2017 which are those issued on September 1, 2005 (two grants), November 8, 2006, August 3, 2007, July 15, 2008, August 16, 2009 and December 3, 2009. For all the grants the mode of settlement is through equity shares. The vested options are required to be exercised by the employees within three years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee. Total number of options granted upto March 31, 2017 are 9,964,650 (Previous year 9,964,650).

The exercise price of ESOS 2005 is determined based on the holding cost of the shares in the books of the Trust. This exercise price is then applicable to all options vested and available for exercise by employees for a particular quarter. Since options outstanding at the end of the year are Nil (Previous year Nil), the weighted average exercise price for options outstanding at the end of the year is not applicable and hence not disclosed. Weighted average exercise price is available only for options already exercised and this price for the current year for all grants combined is ₹ Nil per share (Previous year ₹ 26.50 per share).

The exercise price of stock options outstanding at the end of the period would depend upon the quarterly exercise price. The exercise price for the year ended March 31, 2017 is ₹ Nil per share (Previous year ₹ 26.50 per share). The weighted average remaining contractual life (comprising the vesting period and the exercise period) of options outstanding as at March 31, 2017 is Nil years (Previous year: Nil years).

A summary of status of ESOS 2005 in terms of options granted, forfeited, exercised, outstanding and exercisable is as given below:

B) ESOS 2010

There are two grants issued upto March 31, 2017 which are those issued on June 30, 2010 and October 1, 2010. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of listing of the Company on a recognised stock exchange, whichever is later, subject to the norms

prescribed by the Nomination & Remuneration Committee. Hence, it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2017 are 5,158,000 (Previous year 5,158,000).

A summary of status of ESOS 2010 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below:

C) ESOS 2011

There is one grant upto March 31, 2017 which was issued on October 1, 2011. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The vested options are required to be exercised by the employees within five years from the date of vesting or the date of listing of the Company on a recognised stock exchange, whichever is later, subject to the norms prescribed by the Nomination &

Remuneration Committee. Hence, it is not possible to provide the weighted average remaining contractual life of the options outstanding at the end of the year. The total number of options granted upto March 31, 2017 are 4,753,000 (Previous year 4,753,000).

A summary of status of ESOS 2011 in terms of options granted, forfeited, exercised, outstanding and exercisable along with the weighted average exercise price is as given below :

Method of computation of fair value of options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions used

in Black-Scholes model for calculating fair value of options as on the date of grant are as follows:

ESOS Scheme	Risk Free Interest Rate	Expected Life	Expected Volatility*	Expected Dividend Yield
ESOS 2005	6.15% - 9.37%	1.55 - 5.50 years	42.63% - 65.48%	0.00%
ESOS 2010	7.19% - 7.72%	3.50 - 6.50 years	48.80% - 51.88%	0.00%
ESOS 2011	8.28% - 8.30%	3.50 - 5.50 years	46.75% - 48.12%	0.00%
ESOS 2012	8.19% - 8.74%	1.37 - 3.45 years	30.44% - 36.53%	0.00%
ESOS 2014	7.73% - 8.28%	1.75 - 3.75 years	33.23% - 37.15%	1.06%
ESOS 2015	7.41% - 7.58%	1.75 - 3.75 years	34.21% - 38.38%	1.04%
ESOS 2016	6.57% - 6.80%	1.75 - 3.75 years	10.00%	0.88%

* Volatility of a matured enterprise in the industry which is listed on BSE has been used as a basis for estimation of expected volatility of options. In the case of ESOS 2016, the expected volatility has been assumed at the rate of 10% since the Company is unlisted.

11. Derivative contracts:

In accordance with the IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') allowing insurers to deal in rupee interest rate derivatives, the Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the

interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

- a) The Company has during the year, as part of its Hedging strategy, entered into exchange traded Interest Rate Future (IRF) transactions to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

Schedules

Exchange Traded Interest rate futures are standardised interest rate derivative contracts traded on a recognised stock exchange to buy or sell a notional debt security or Government Bond (GOI) or Treasury Bill (T-Bill) of at a specified future date, at a price determined at the time of the contract with an

objective to lock in the price of an interest bearing security at a future date.

The fair value for IRF instrument is considered as the daily settlement price on NSE. If the settlement price is not available on NSE, then the daily settlement price on BSE is considered for valuation of IRFs.

Schedules

An amount of ₹ Nil (Previous year ₹ Nil) was recognised in Consolidated Revenue Account being the portion of gain/loss determined to be ineffective.

Amount that was removed from Hedge Reserve account during the year ended March 31, 2017 in respect of forecast transaction for which hedge accounting had previously been used, but is no longer expected to occur is ₹ 243,569 (Previous year ₹ Nil)

The cash flows from the hedges are expected to occur over the outstanding tenure of underlying policy liabilities and will accordingly flow to the Consolidated Revenue Account.

Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes:

a) Fixed Income Derivative Hedging instruments:

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company uses derivative instrument (IRF) to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, goals and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

b) Derivative Policy / Process and Hedge effectiveness assessment:

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment.

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative

exposures. The overall policy, risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

c) Scope and nature of risk identification, risk measurement and risk monitoring:

The Risk Management Policy and Derivative Policy as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives.

As the IRFs are traded and settled by the recognised stock exchanges i.e. National Stock Exchange or Bombay Stock Exchange, the risk of counterparty failure would not exist, however the following risks pertaining to hedging using IRFs still exist:

i) Roll over risk

Futures contracts traded in the markets usually expire in 1-3 months. Since the period for which the hedge is established is longer, it necessitates frequent roll-overs from contracts approaching expiry into new contracts. Roll over risk is the cost involved in rolling over futures contracts. The financial impact of this risk can be reduced by actively managing the roll-over from existing contracts into new contracts.

ii) Basis Risk

Basis risk is the risk arising out of a mismatch in the tenure of the risk to be hedged and the tenure of available interest rate future contracts. The financial impact of this risk can be reduced to some extent by purchasing futures contracts so as to match the tenure of the risk to be hedged.

All financial risks of the derivative portfolio are measured and monitored on periodic basis.

Quantitative disclosure on risk exposure in Exchange Traded Interest Rate Futures

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (IRF). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Consolidated Revenue Account.

The tenure of the hedging instrument may be less than or equal to the tenure of underlying hedged asset/liability.

1. As per the hedging strategy, the derivatives exposure required as at March 31, 2017 is Nil

2. [^] This represents a part of the portfolio targeted to be hedged

3 Method & Assumptions:

- a. Term structure of interest rates: Source - Clearing Corporation of India Limited official website
- b. Methodology for computation of PV01:
 1. Discounted cash flow method
 2. Flat cut of 1 bps in the current term structure of interest rates
4. The notional principal amount of derivatives reflect the volume of transactions outstanding as at the Balance Sheet date and do not represent the amounts at risk.
5. The Company evaluates the industry exposure limit for exchange traded IRFs against the Central Counter Party i.e. Clearing Corporation in line with the IRDAI circular on Interest Rate Derivatives.

The industry exposure limit has been calculated on the basis of Credit Equivalent Amount using the Current Exposure Method (CEM) as detailed below:

The Credit Equivalent Amount of a market related off-balance sheet transaction calculated using the CEM is the sum of

- a) The current credit exposure (gross positive mark to market value of the contract); and
- b) potential future credit exposure which is a product of the notional principal amount across the outstanding contract and a factor that is based on the mandated credit conversion factors as prescribed under the IRDAI circular on Interest Rate Derivatives, which is applied on the residual maturity of the contract.

12. During the year ended March 31, 2017, the Company received an order from IRDAI, Order No. IRDA/F&I/ORD/DATA/110/06/2016 dated June 3, 2016, on the matter relating to certain property assets. As a result of compliance with the said order,

a) The Company has transferred funds from Shareholders' funds to Policyholders' funds, towards the value of property, as on the date of transfer, basis independent valuer's report, at cost or market value, whichever is higher, amounting to ₹ 655,298 thousands (transfer value) and interest, compounded annually at the prevailing interest rate on saving bank account, amounting to ₹ 122,145 thousands calculated on the transfer value, for the period from the date of transfer to the date of infusion of funds into Policyholders' fund. The interest has been charged to Shareholders' Profit & Loss Account and credited to 'Other income' in policyholders' Revenue Account.

b) Revaluation reserve earlier created on revaluation of an investment property has been unwound and adjusted against the revalued amount of the said property which was reclassified from investment to fixed asset. Consequently, the property included under Fixed Assets-Buildings in Balance Sheet is lower by ₹ 556,964 thousands, accumulated depreciation is lower by ₹ 78,227 thousands and depreciation in Consolidated Revenue Account is lower by ₹ 21,755 thousands resulting into profit for the period being higher by ₹ 13,451 thousands.

13. Commitments made and outstanding for loans, investments and fixed assets

The estimated amount of commitments made and not provided for (net of advances) as at March 31, 2017 is ₹ 873,648 thousands (Previous year ₹ 351,480 thousands) on account of investments and estimated amount of commitments made and not provided for (net of advances) as at March 31, 2017 ₹ 129,015 thousands (Previous year ₹ 199,018 thousands) on account of fixed assets.

14. Provision for NPA (non-standard assets) for debt portfolio

Provision for doubtful debts is made in line with the 'Guidelines on Prudential norms for income recognition, Asset classification, Provisioning and other related matters in respect of Debt portfolio as specified by IRDAI vide the Master Circular dated December 11, 2013. During the year, there is a reversal of provision for doubtful debt recognised in earlier years amounting to ₹ 58,240 thousands in the Consolidated Revenue Account (Previous year provision at 100% of unsecured portion and 40% of secured portion amounting to ₹ 53,674 thousands) due to transfer of assets to Shareholders' Fund being "Other investments" as required under IRDAI (Investment) Regulations 2016.

15. Segmental reporting

As per Accounting Standard (AS) 17, "Segment Reporting", read with the Financial Statements Regulations, Consolidated Segmental Accounts are disclosed in **Annexure 1 and 2**.

16. Earnings per equity share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for effects of all dilutive equity shares.
